

SHEAN IRON STEEL

Timber Connector • Foundation • Farm Supply • Garden Supply • Building Material

Shean Iron Steel Co.,Ltd

Developing Innovative Solutions for You

Who We Are

Shean Iron Steel Co.,Ltd was founded in 2007. We are located in Hebei,north to Beijing, which brings great convenience in traf-fic.We act as manufacturer and trader.

Our Philosophy

The core is how to better serve customers. On the service side, Shean Iron Steel Co.,Ltd does not simply sell goods, but pro-vides a solution to customers, who truly regards customers as their own friends and family, and tries hard to be the custom-er' s support.

What We do

We have 5 categories: farm supply, foundations, garden supply, timber connectors, and building matieral.

We will provide customers with abundant products, good price and nice quality so as to reassure customers with ease and comfort.

Our Advantage

1. Good product is a good thing for a successful get-together.
2. Refined management.
3. Rest assured on free sample.
4. Stock to solve customers' urgent needs.

TIMBER CONNECTOR

Real environment

Advantage

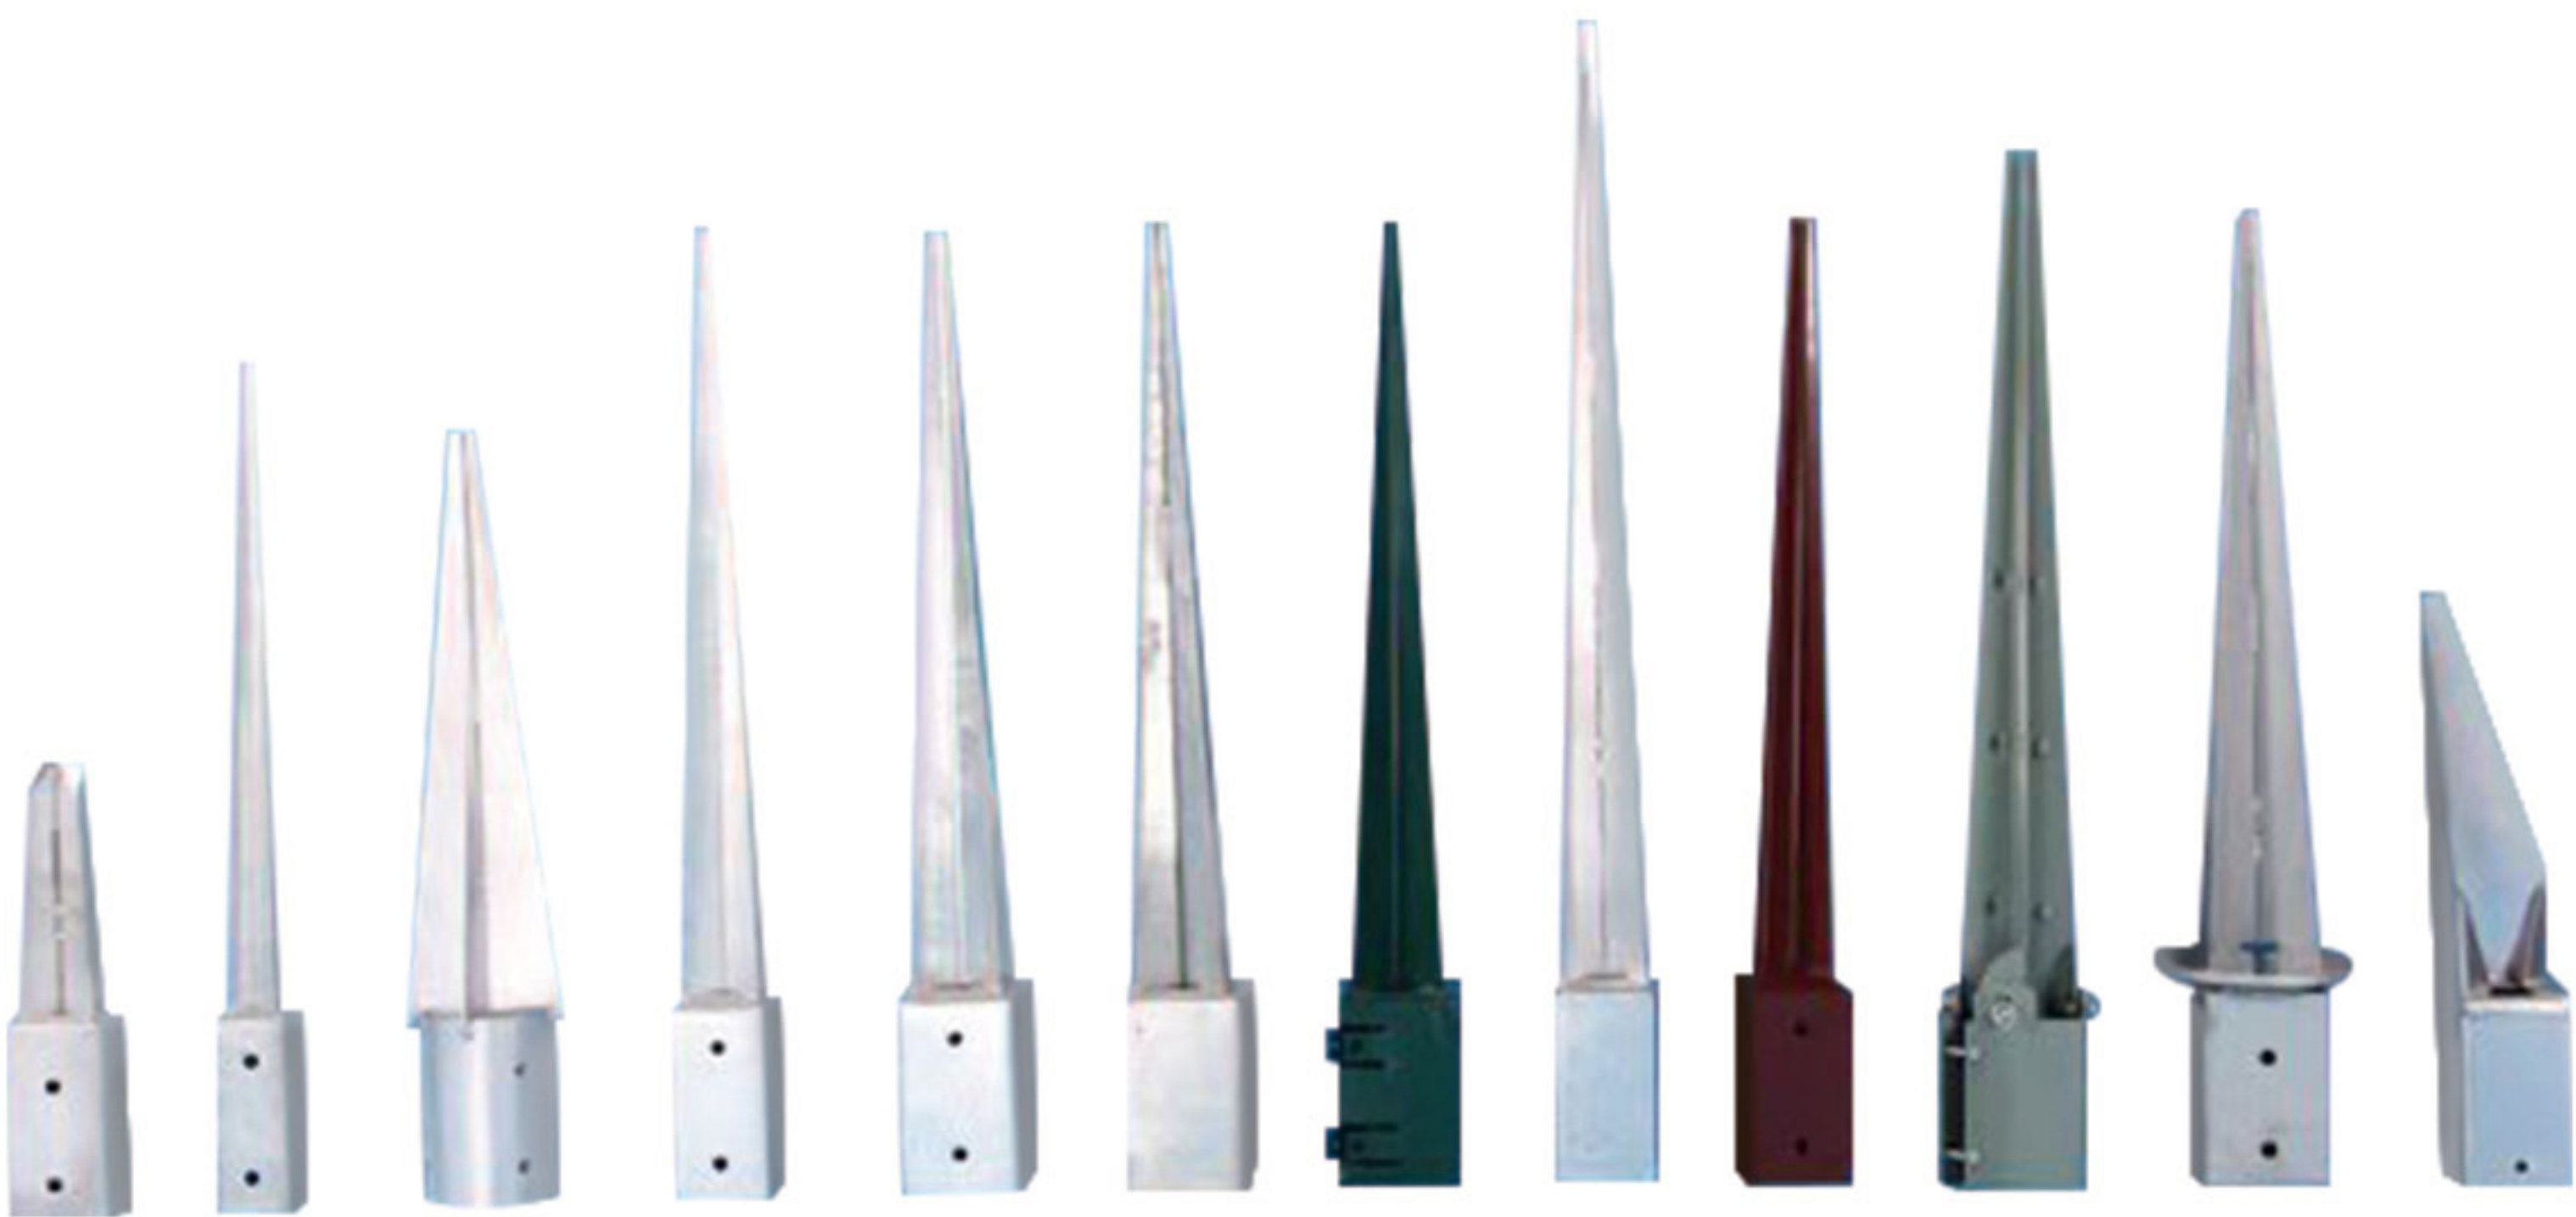

- Four-fin spike which can fixed the post firmly without digging and concreting.
- Suitable for metal, wood, plastic post, etc.
- Easy to install.
- No digging and concrete.
- Cost effectively.
- Can be reuse and relocated.
- Long life cycle.
- Environmental friendly.
- Corrosion resistant.
- Anti-rust.
- Durable and strong.

POST SPIKE

Length (mm)	600 / 750 / 900
Width (mm)	45 / 50 / 60 / 70 / 90 / 100 / 120
Thickness (mm)	1.8 / 2
Surface	HDG / PC

Custom sizes and shapes are available

POST SUPPORT

Real environment

Advantage

- Comply with building code requirements.
- Long term of providing protection.
- Enhance the stability of the post.
- Perfect for timber post.
- Anti-rust.
- No need of digging and concreting.
- Can be used in humid environments.

T POST SUPPORT

Length (mm)	50-150
Width (mm)	50-130
Height (mm)	100-300
Thickness (mm)	3-6
Pin Dia. (mm)	4-10
Surface	HDG / SS

Custom sizes and shapes are available

H POST SUPPORT

Length (mm)	600 / 750 / 800
Width (mm)	71 / 81 / 91 / 101 / 111 / 116 / 121 / 141
Height (mm)	50 / 60 / 80
Thickness (mm)	5 / 6 / 8
Surface	HDG / SS

Custom sizes and shapes are available

U POST SUPPORT

Height (Qmm)	100-300
Length (mm)	50-150
Width (mm)	50-130
Thickness (mm)	3-6
Pin Dia. (mm)	4-10
Surface	HDG / SS

Custom sizes and shapes are available

L POST SUPPORT

Length (mm)	60-150
Width (mm)	50-90
Height (mm)	100-140
Thickness (mm)	3-6
Pin Dia. (mm)	4-6

Length (mm)	60-150
Width (mm)	50-130
Thickness (mm)	3-6
Surface	HDG / SS
Custom sizes and shapes are available	

ADJUSTABLE POST SUPPORT

Opening (mm)	65-120
Bar length (mm)	250
Bar dia. (mm)	16-20
Surface	HDG / EG / SS
Custom sizes and shapes are available	

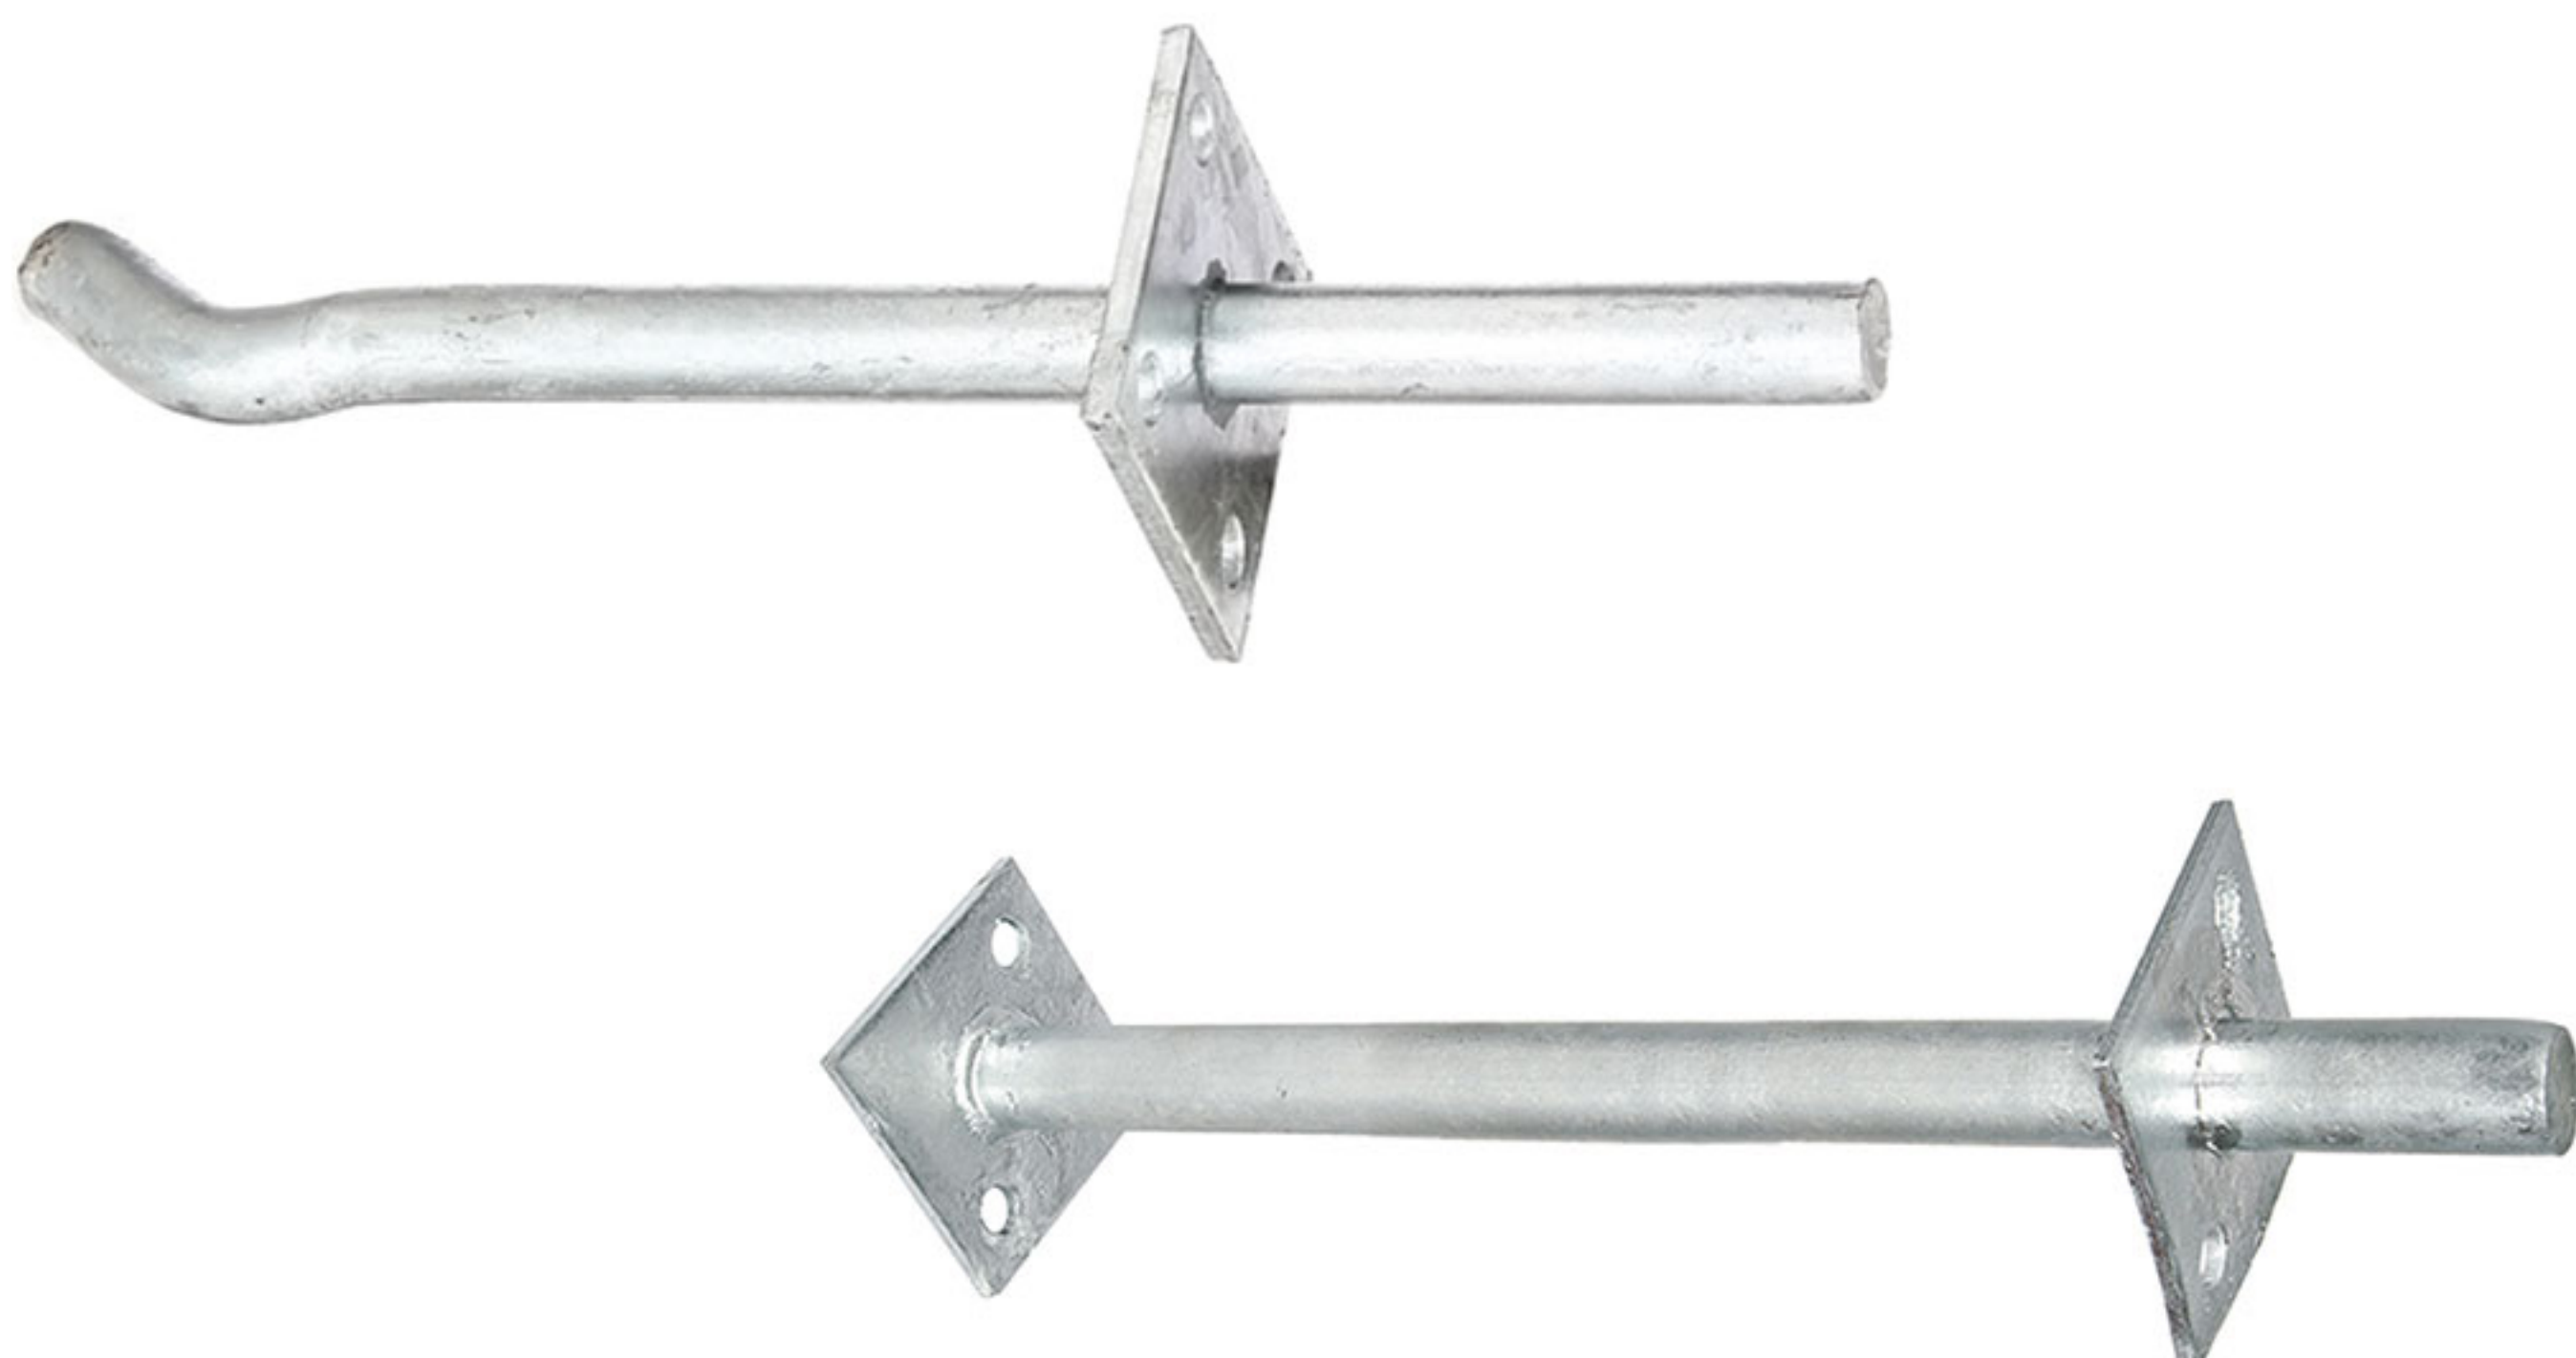

BOLT DOWN POST SUPPORT

Height (Qmm)	80-120
Width (mm)	90-125
Thickness (mm)	1.5-4.0
Surface	HDG / SS
Custom sizes and shapes are available	

I POST SUPPORT

Height (mm)	300-500
Width (mm)	50-70
Pin Dia. (mm)	12-30
Surface	HDG / EG
Custom sizes and shapes are available	

POST BASE

Real environment

Advantage

Convenient and fully adjustable for many post size.

Advantage

Best corrosion & rust resistance
Easy to install & remove
Lightweight but high strength

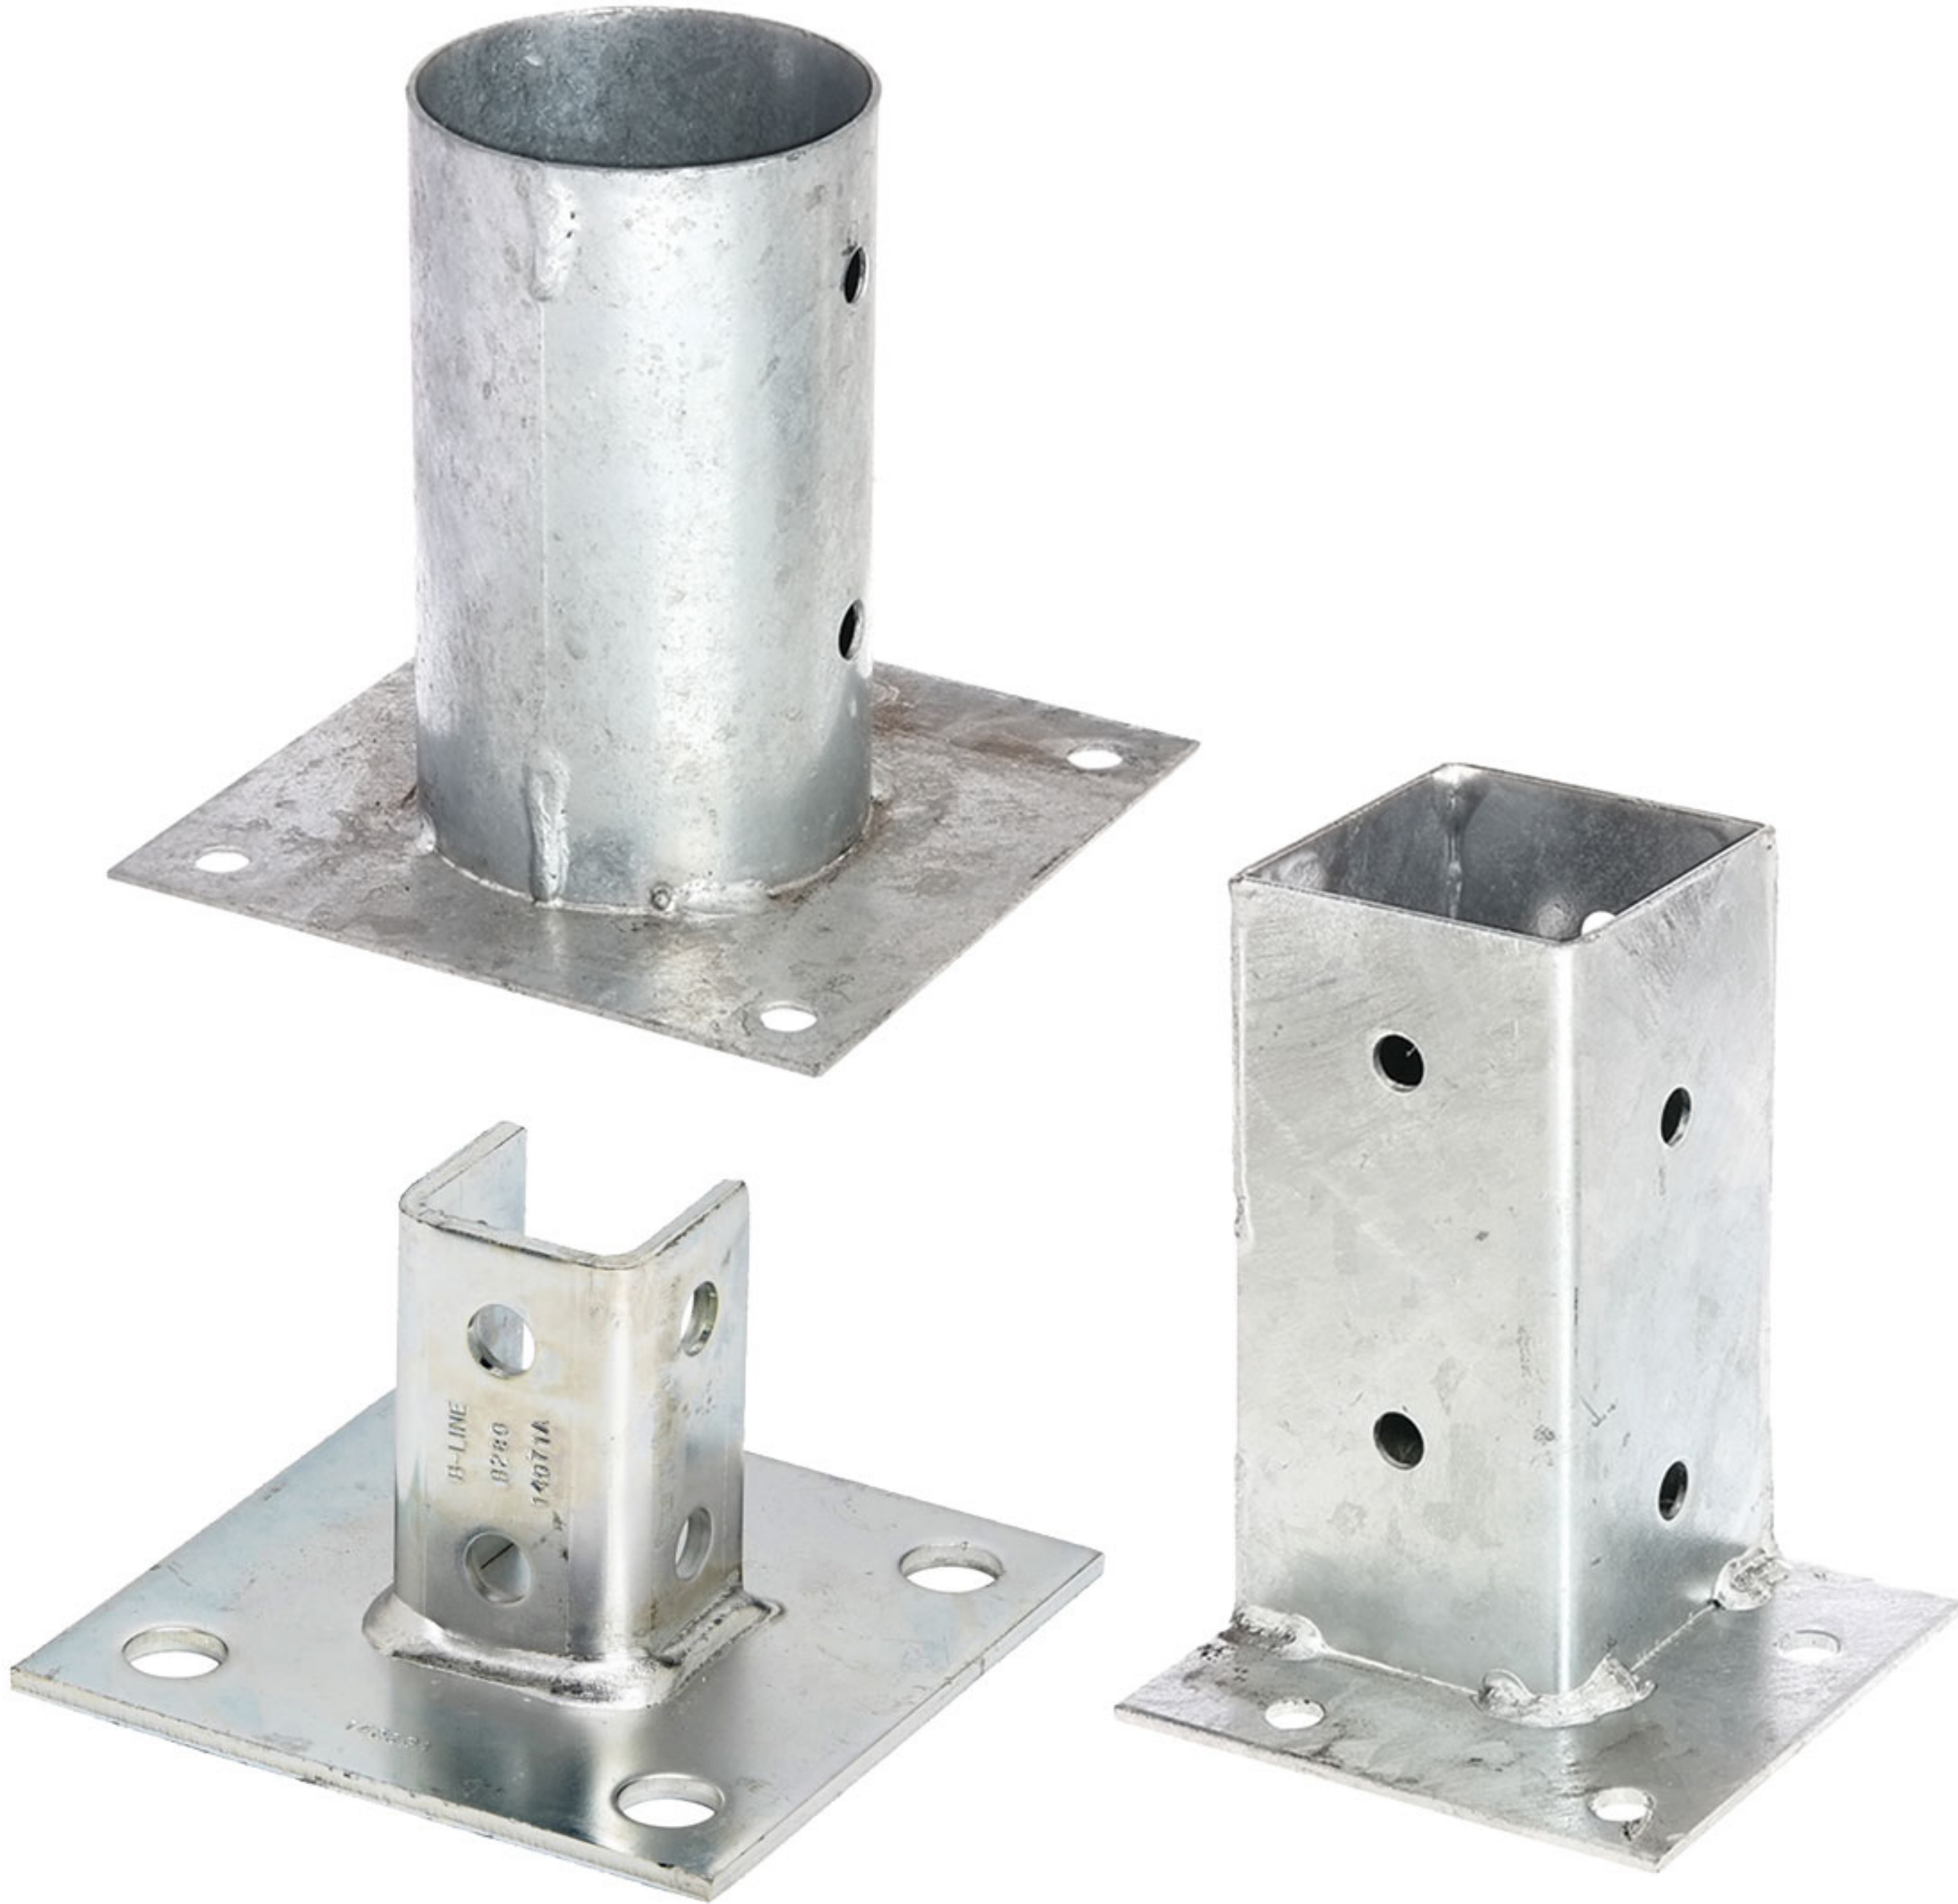

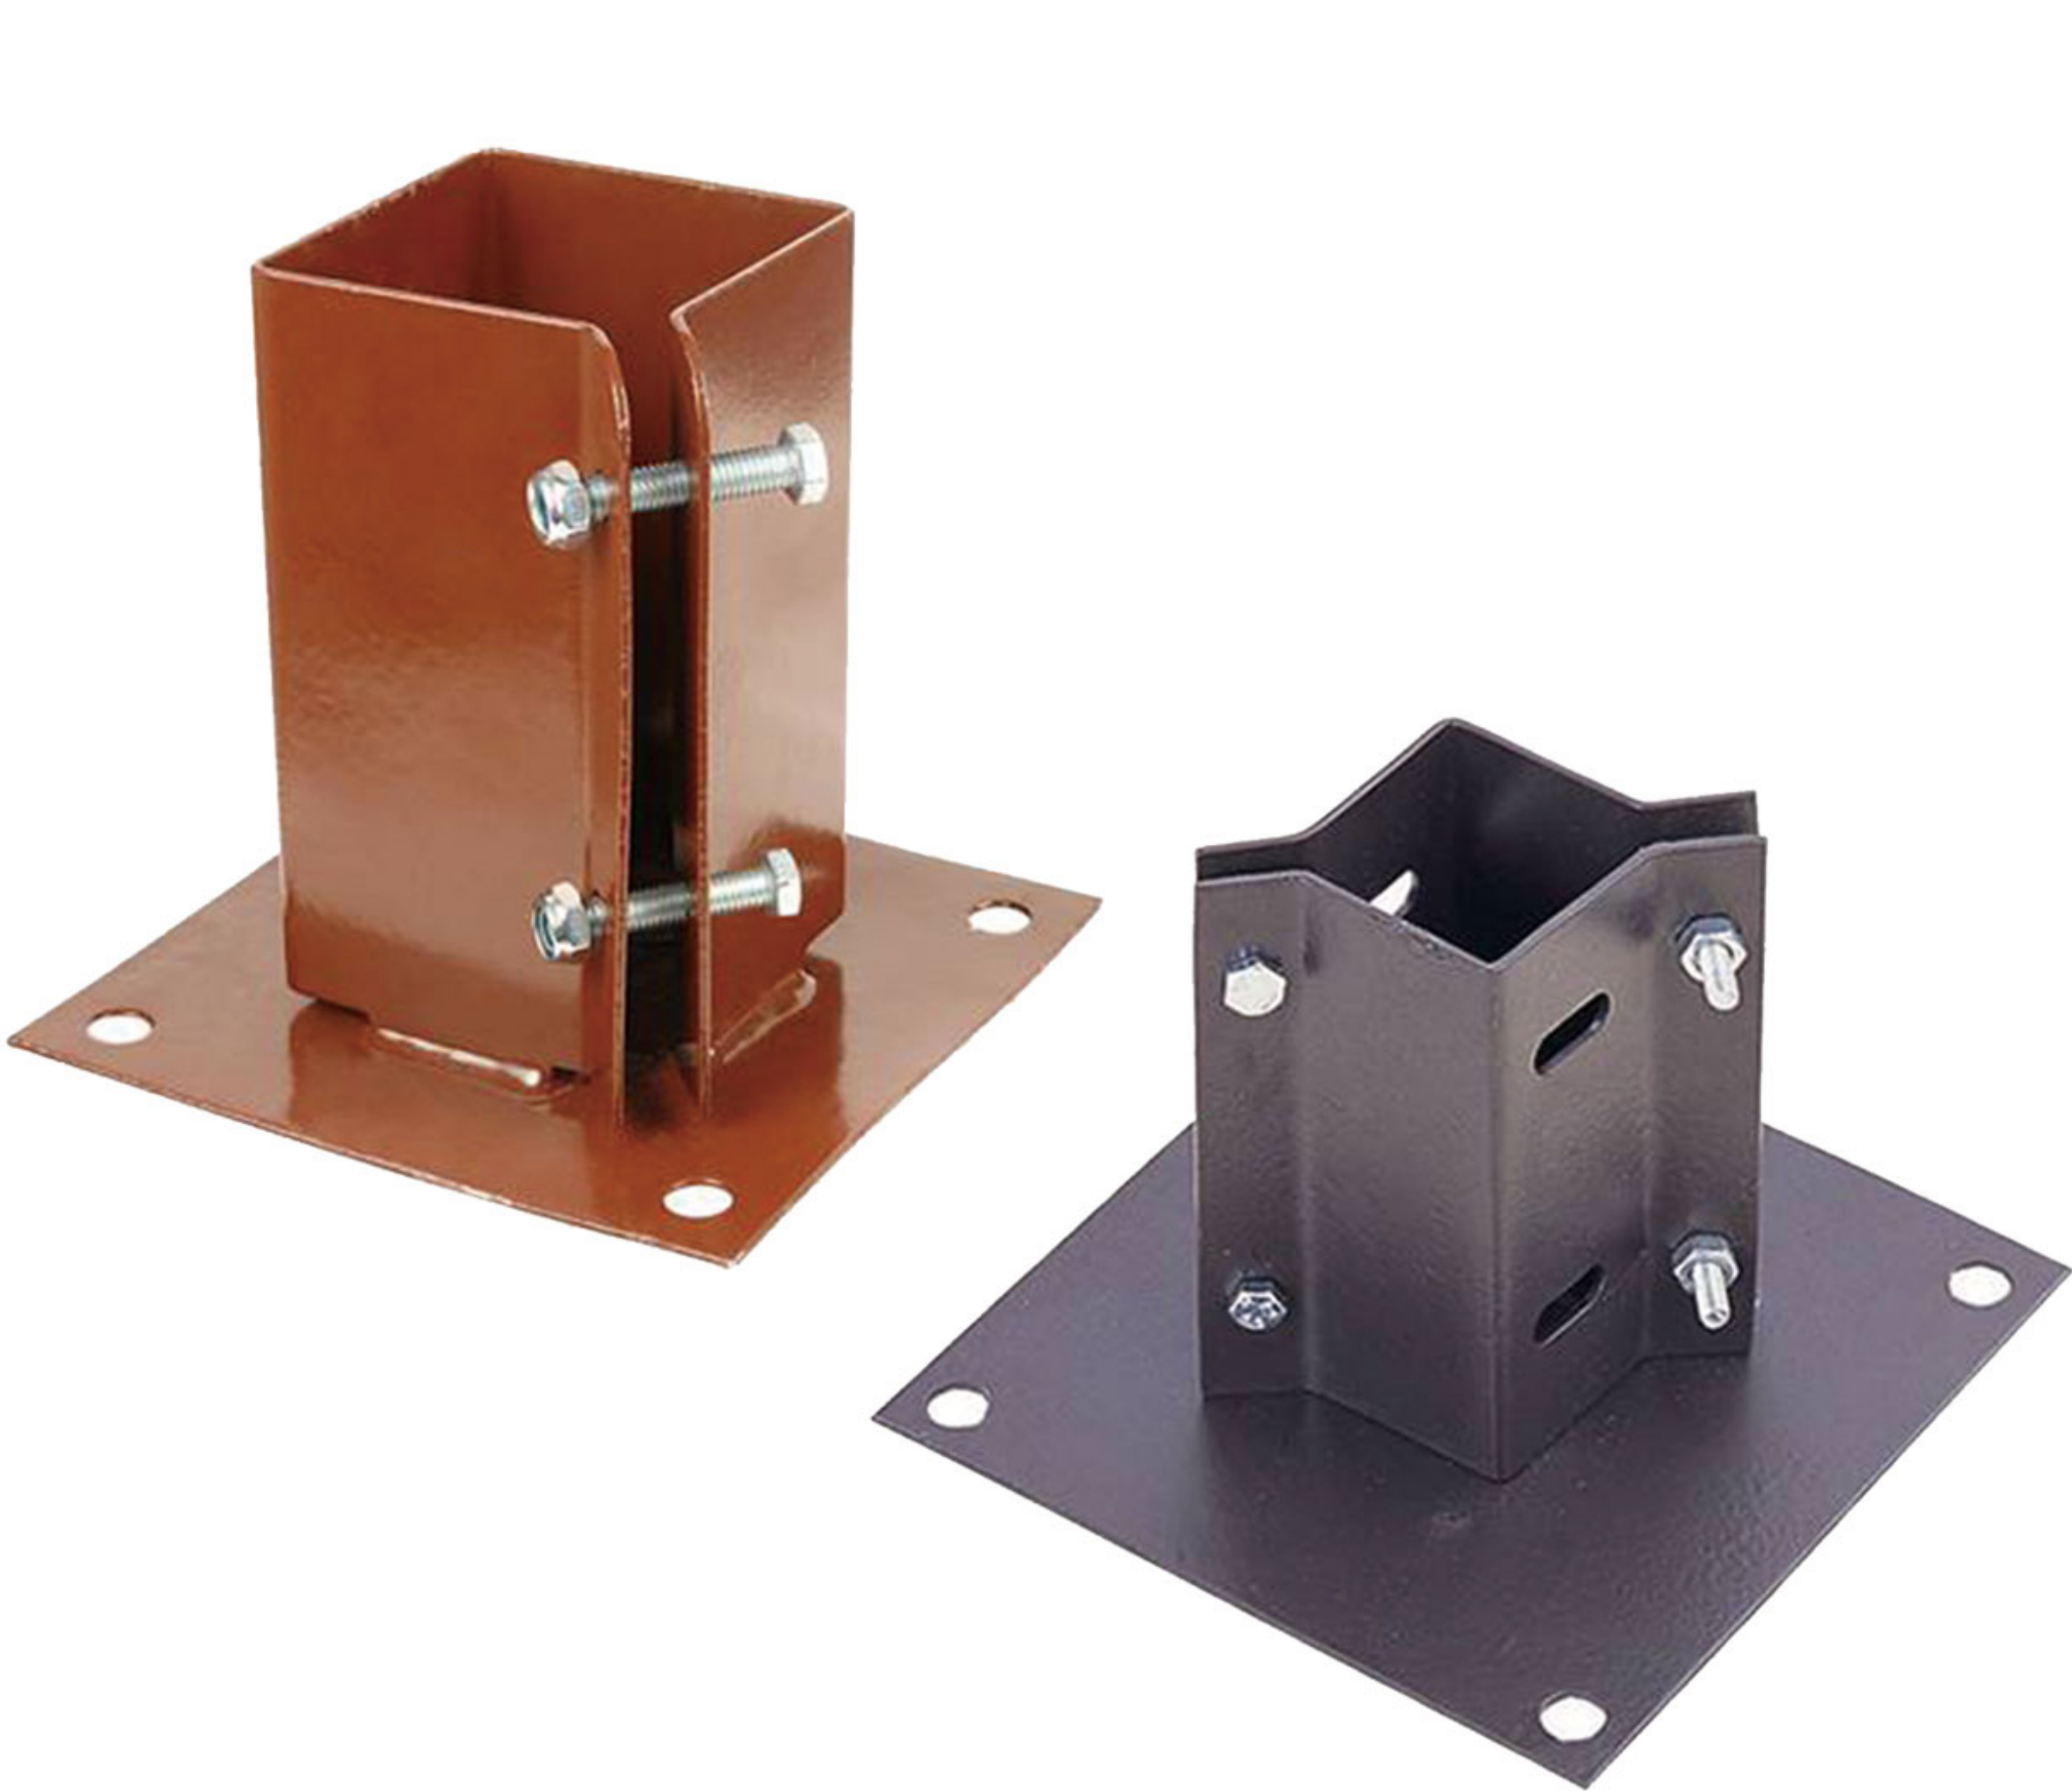

Height (mm)	100-300
Length or diameter (mm)	50-150
Plate length (mm)	70-300
Thickness (mm)	3-6
Surface	HDG / PC

Custom sizes and shapes are available

Height (mm)	100-300
Length or diameter (mm)	50-150
Plate length (mm)	70-300
Thickness (mm)	1.8-5
Surface	HDG / PC

Custom sizes and shapes are available

FOUNDATION

Real environment

Advantage:

- No dig, No concrete pouring, or landfill requirements.
- Anti-rust, corrosion resistant.
- Significant reduction in installation time.
- Speed and ease of installation, removal, and relocation – with minimum impact to the landscape.
- Consistent and reliable foundation performance.
- Different ground screw heads to accommodate various post form.
- Hot dip galvanization conform to DIN EN ISO 1461/ASTM A123.
- OEM service available.
- Cost effectively.

Application:

- Fence, barrier, solar system, shelter, shed, traffic sign, tent, timber construction, ads board, flage pole and etc

GROUND SCREW

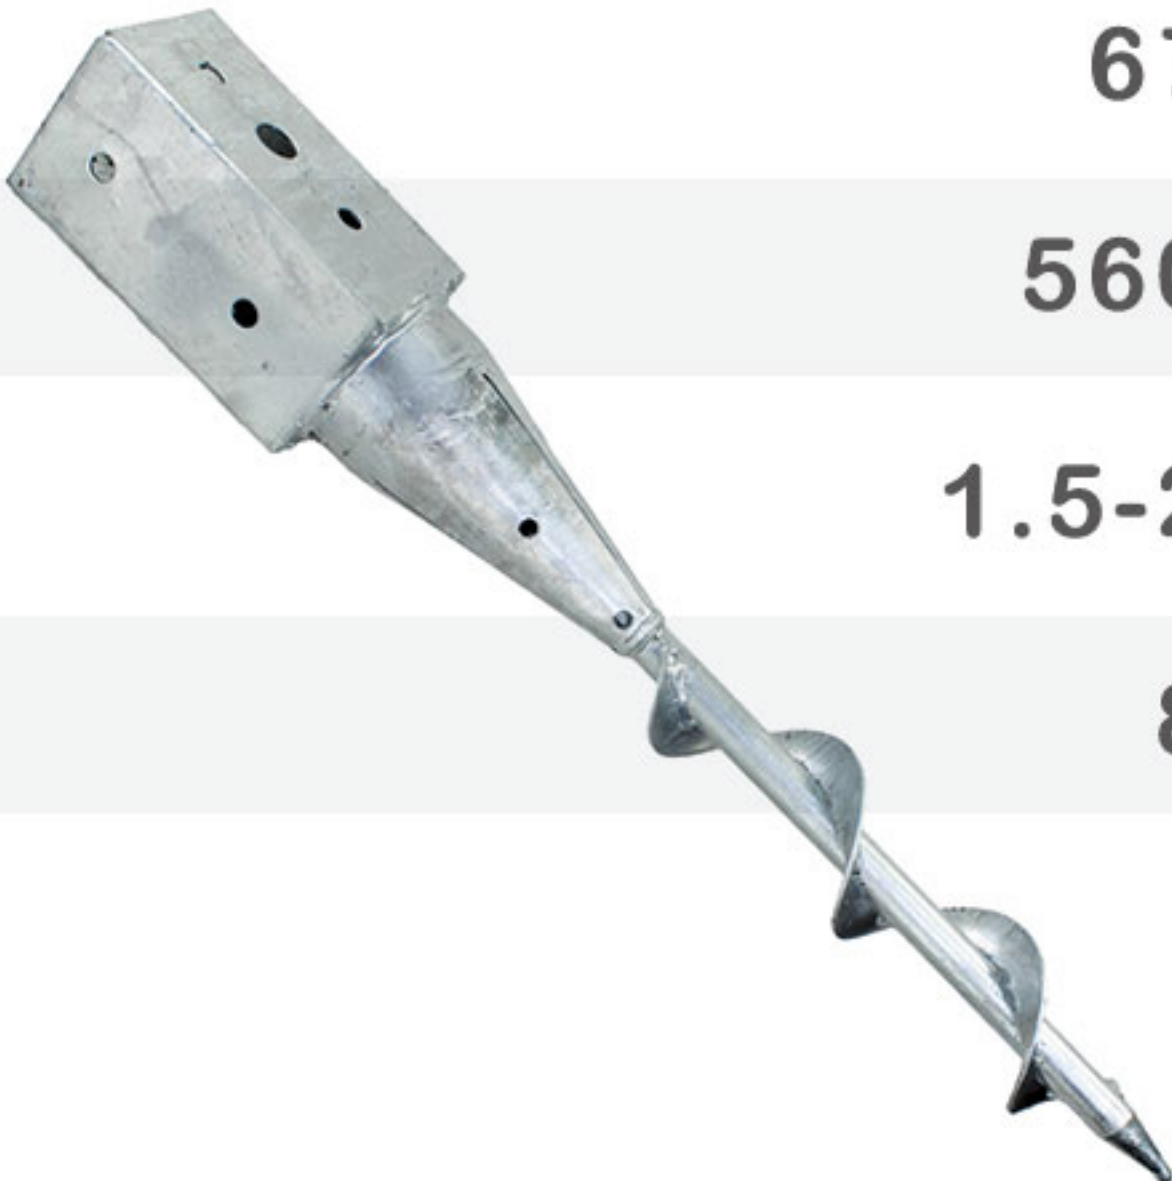

OD(mm)	60 / 68
Length(mm)	550 / 570 / 580

Length(mm)	555 / 565 / 735 / 870
Holes	10 X dia. 13

U Part

Height(mm)	130 / 170
Width(mm)	71 / 91 / 110
Length(mm)	70mm
Holes	10 X dia. 11

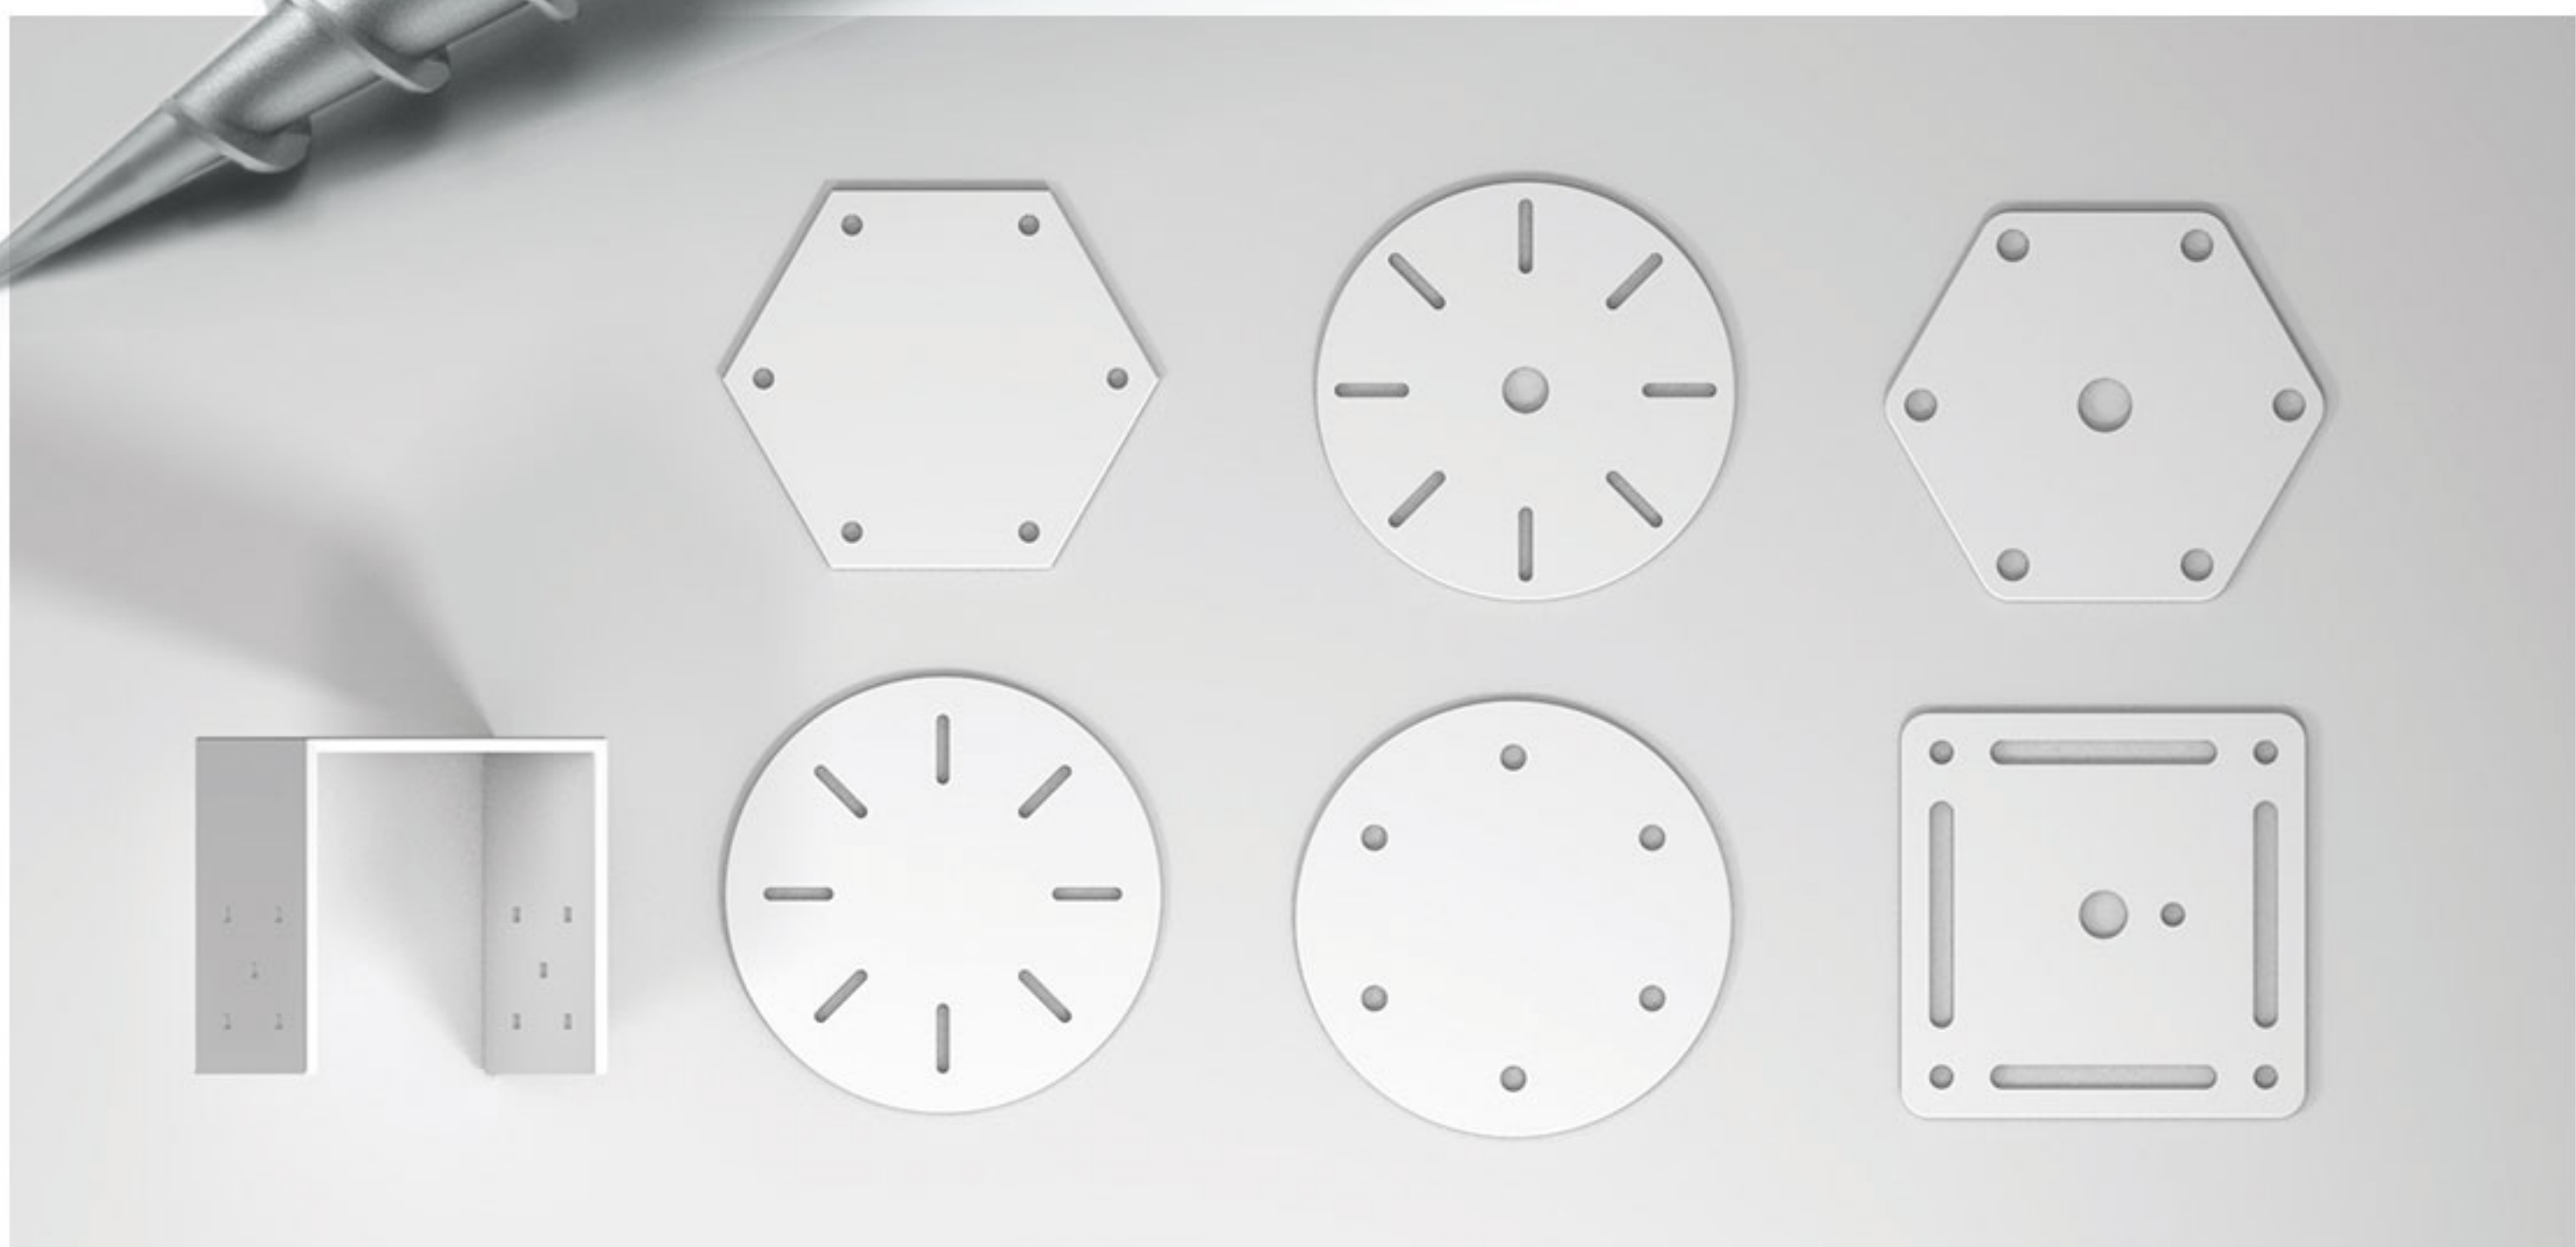

FOUNDATION

Real environment

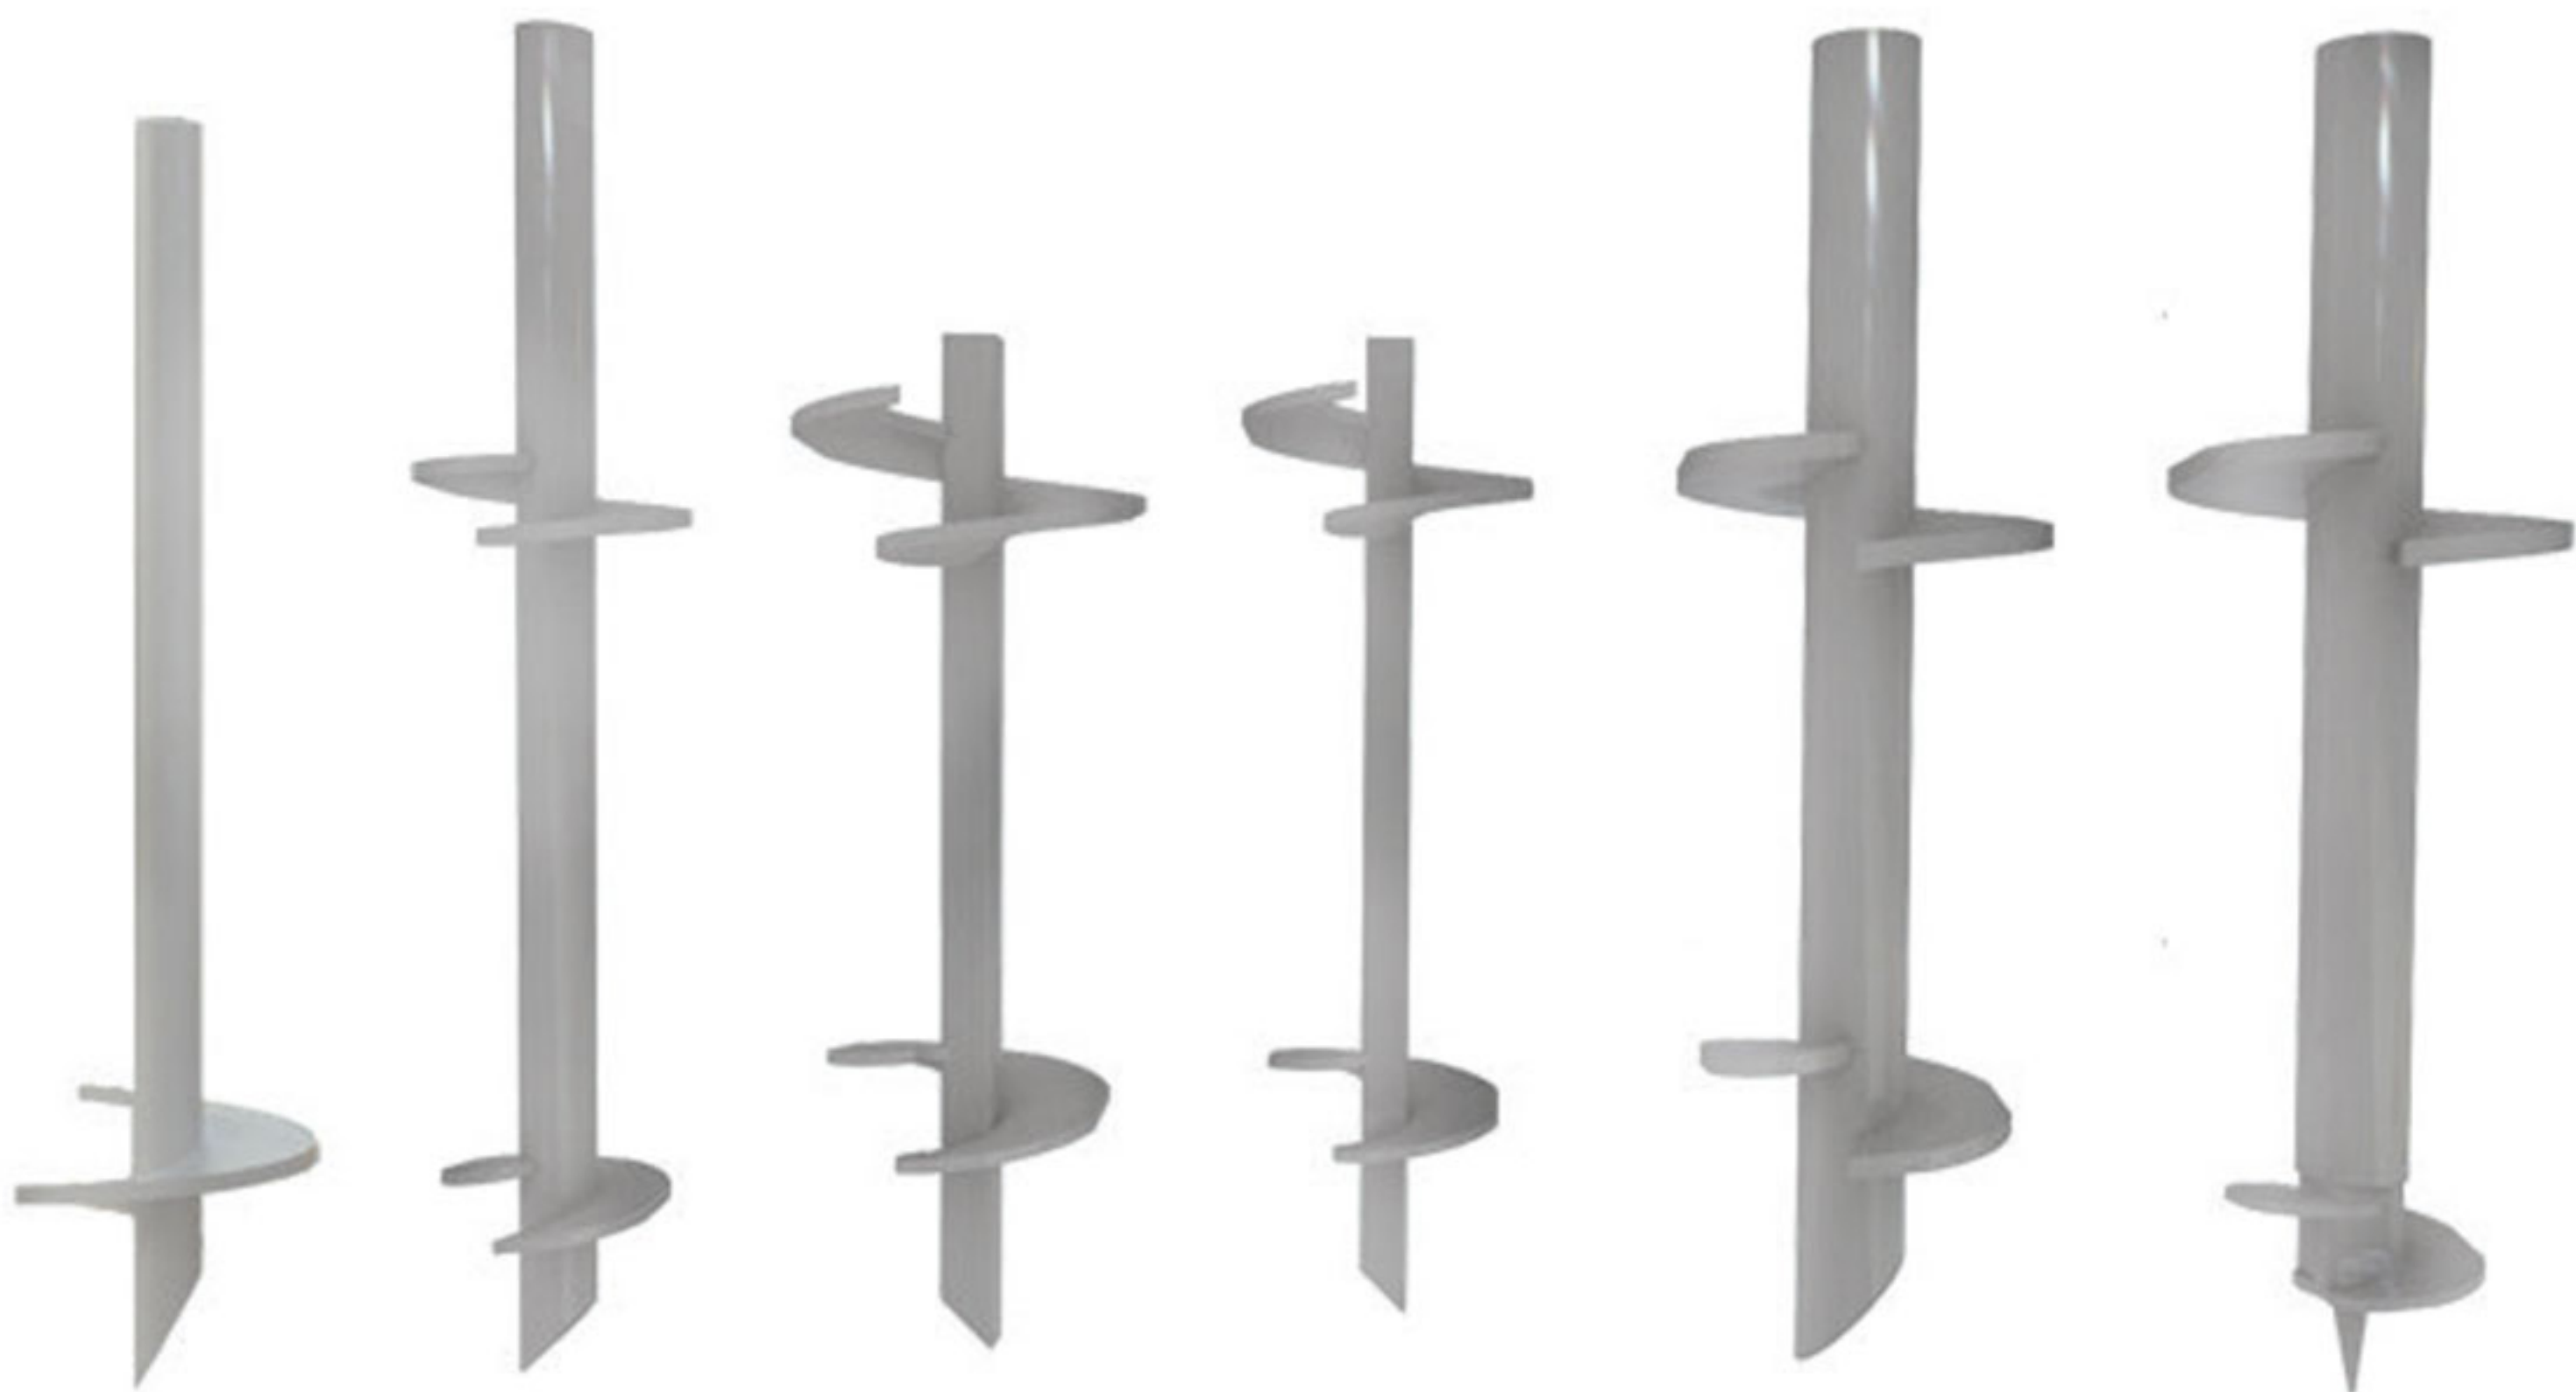

GROUND SCREW WITH FLANGE

OD(mm)	60 / 76 / 89 / 114
Length(mm)	1200 / 1600 / 1800 / 2000
Pipe thickness(mm)	3-4
Holes	3 X dia.16mm
Flange	DIY

SCREW PILE

OD(mm)	76 / 89 / 114
Length(mm)	1200 / 1600 / 1800 / 2000
Pipe thickness(mm)	3-4
Holes	4 X dia.16mm
Flange	DIY

FOUNDATION

Real environment

Advantage:

- No digging and concreting.
- Easy to install and remove.
- Can be reused.
- Regardless of the terrain.
- Corrosion resistant.
- Durable.
- Competitive price.
- Use To Secure Tents, Canopies, Awnings, Fencing, Playground Equipment,

GROUND ANCHOR

Length (mm)	800-1800
Helix dia. (mm)	500-1400
Helix thickness (mm)	10-16
Shaft dia. (mm)	2-5
Surface	HDG / PP

Custom sizes and shapes are available

FARM SUPPLY

Real environment

Description:

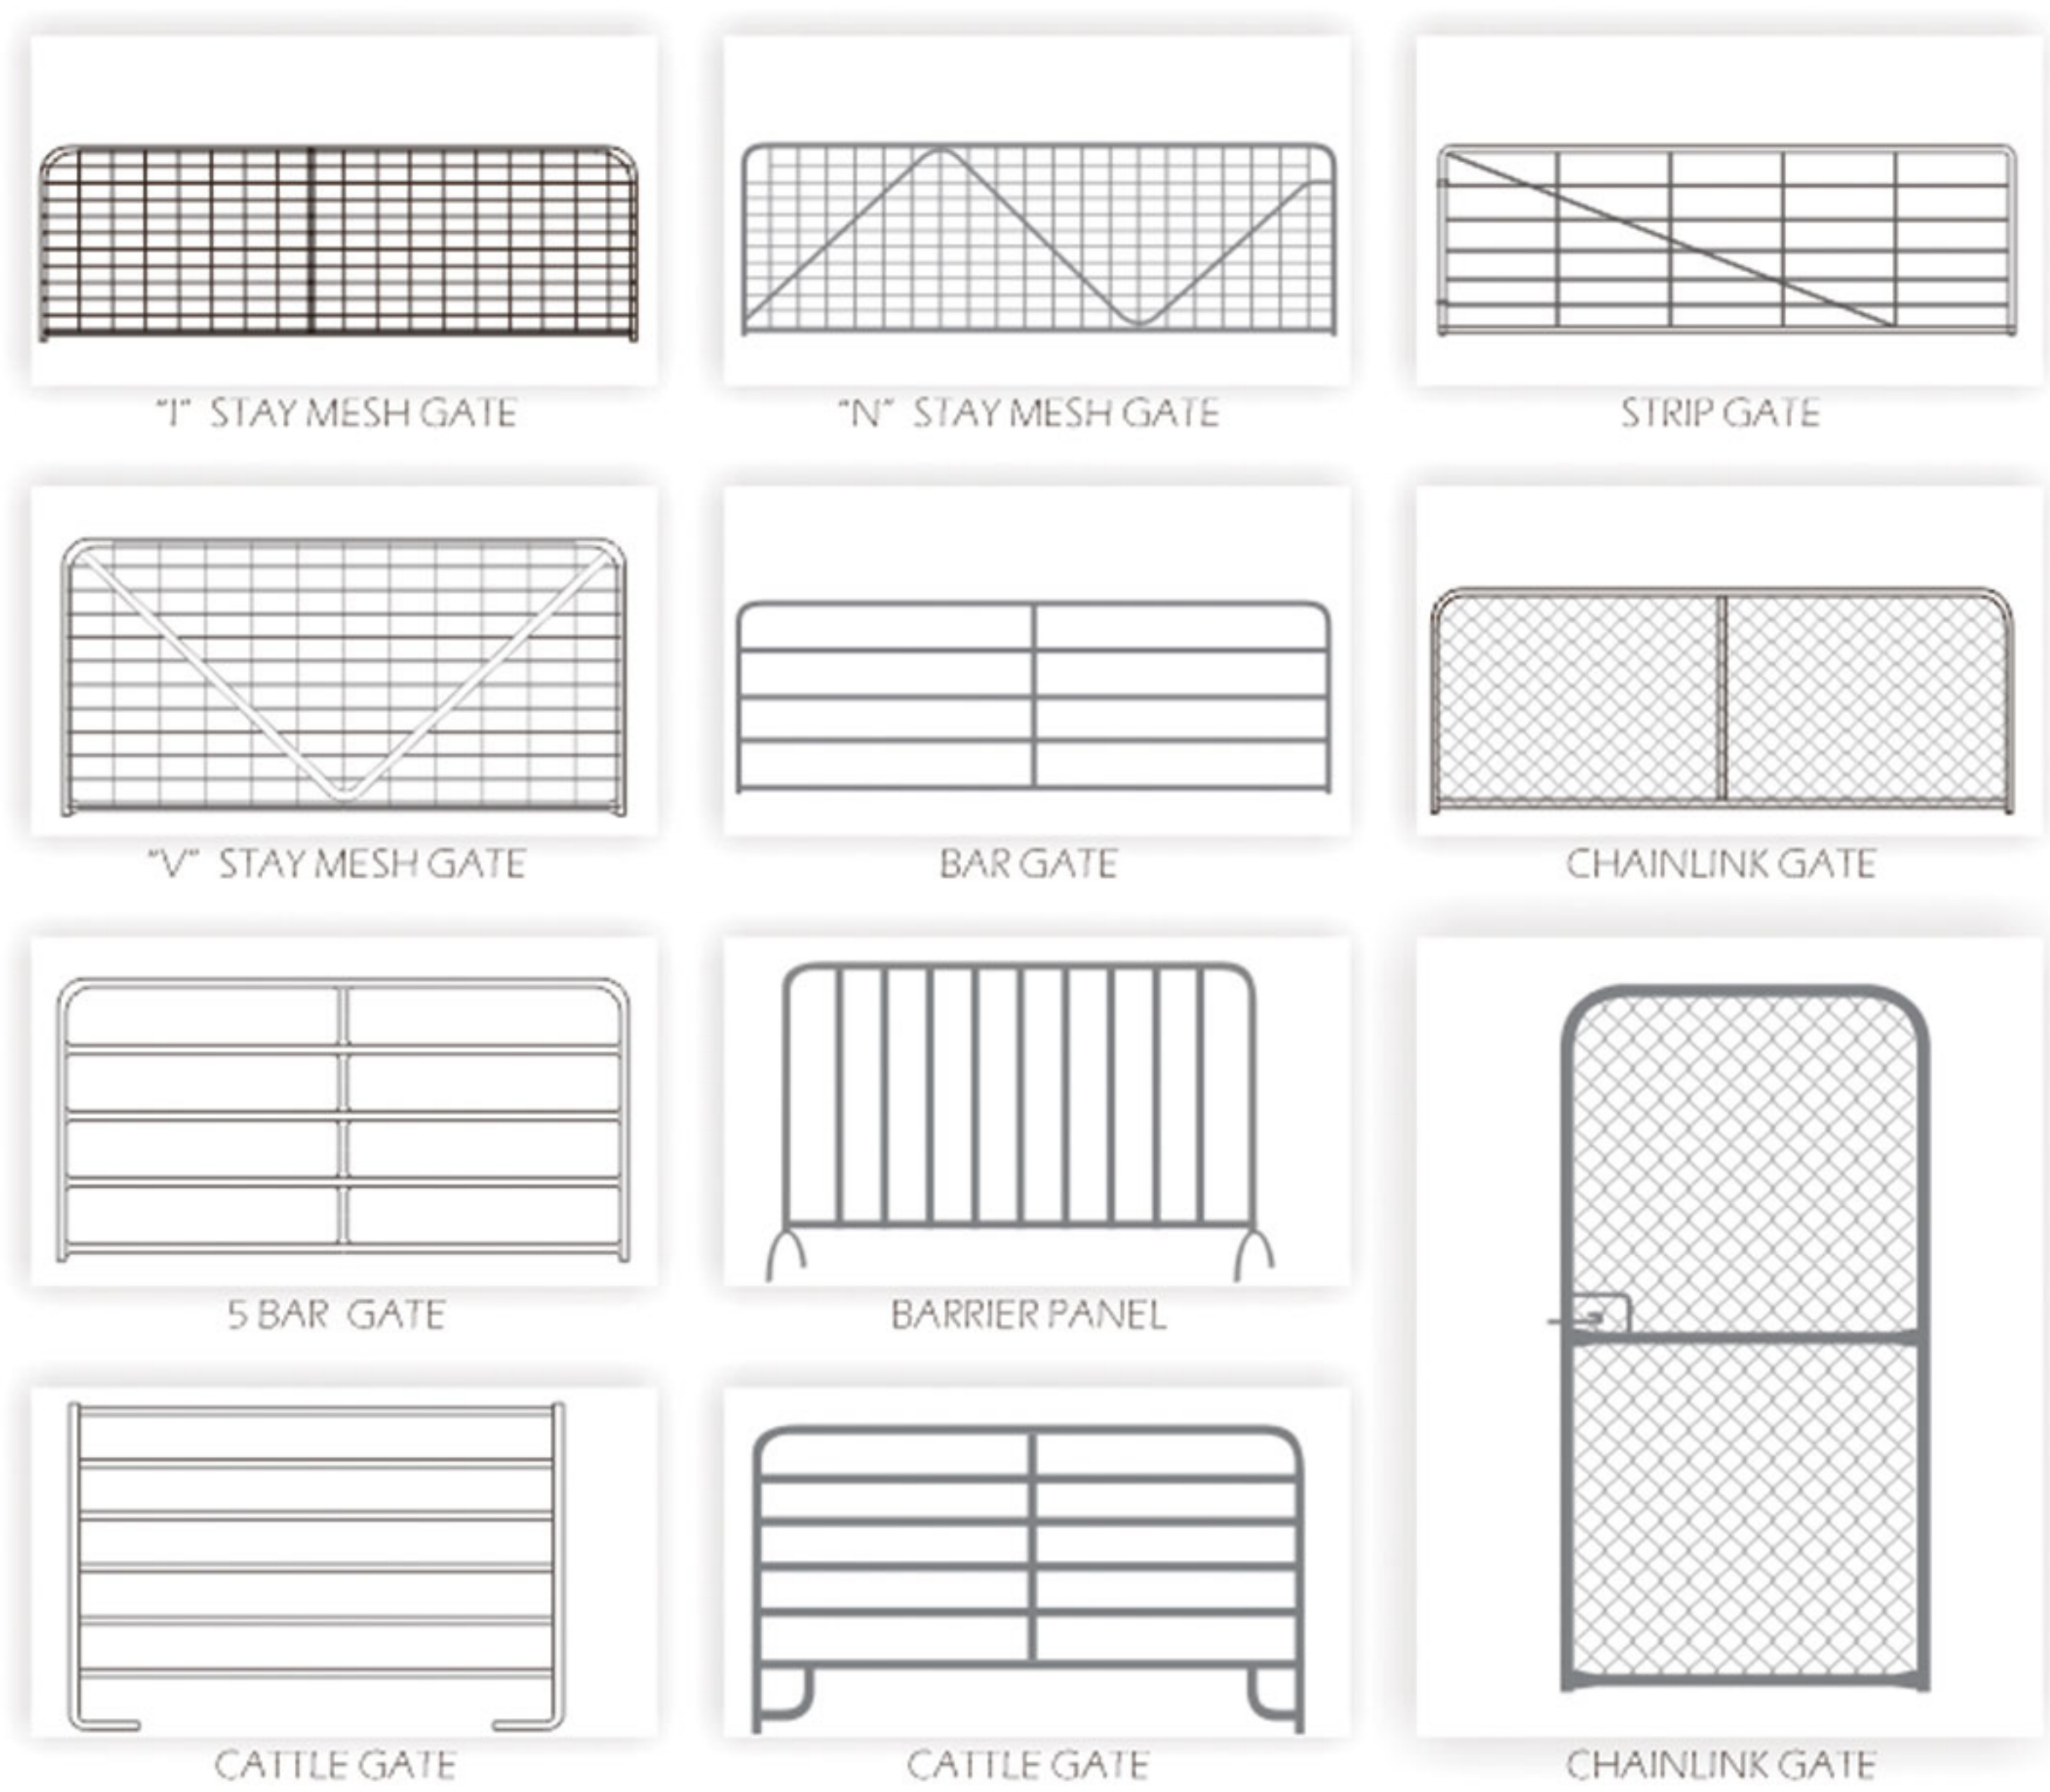

It is fabricated with welded hot dip galvanized pipes for the use of fencing livestock, such as cattle, cow, bull, calves, Dairy sheep, goat, hog. As a gate and livestock fence, it can keep livestock safe and protect your farm from wild animals.

Advantage:

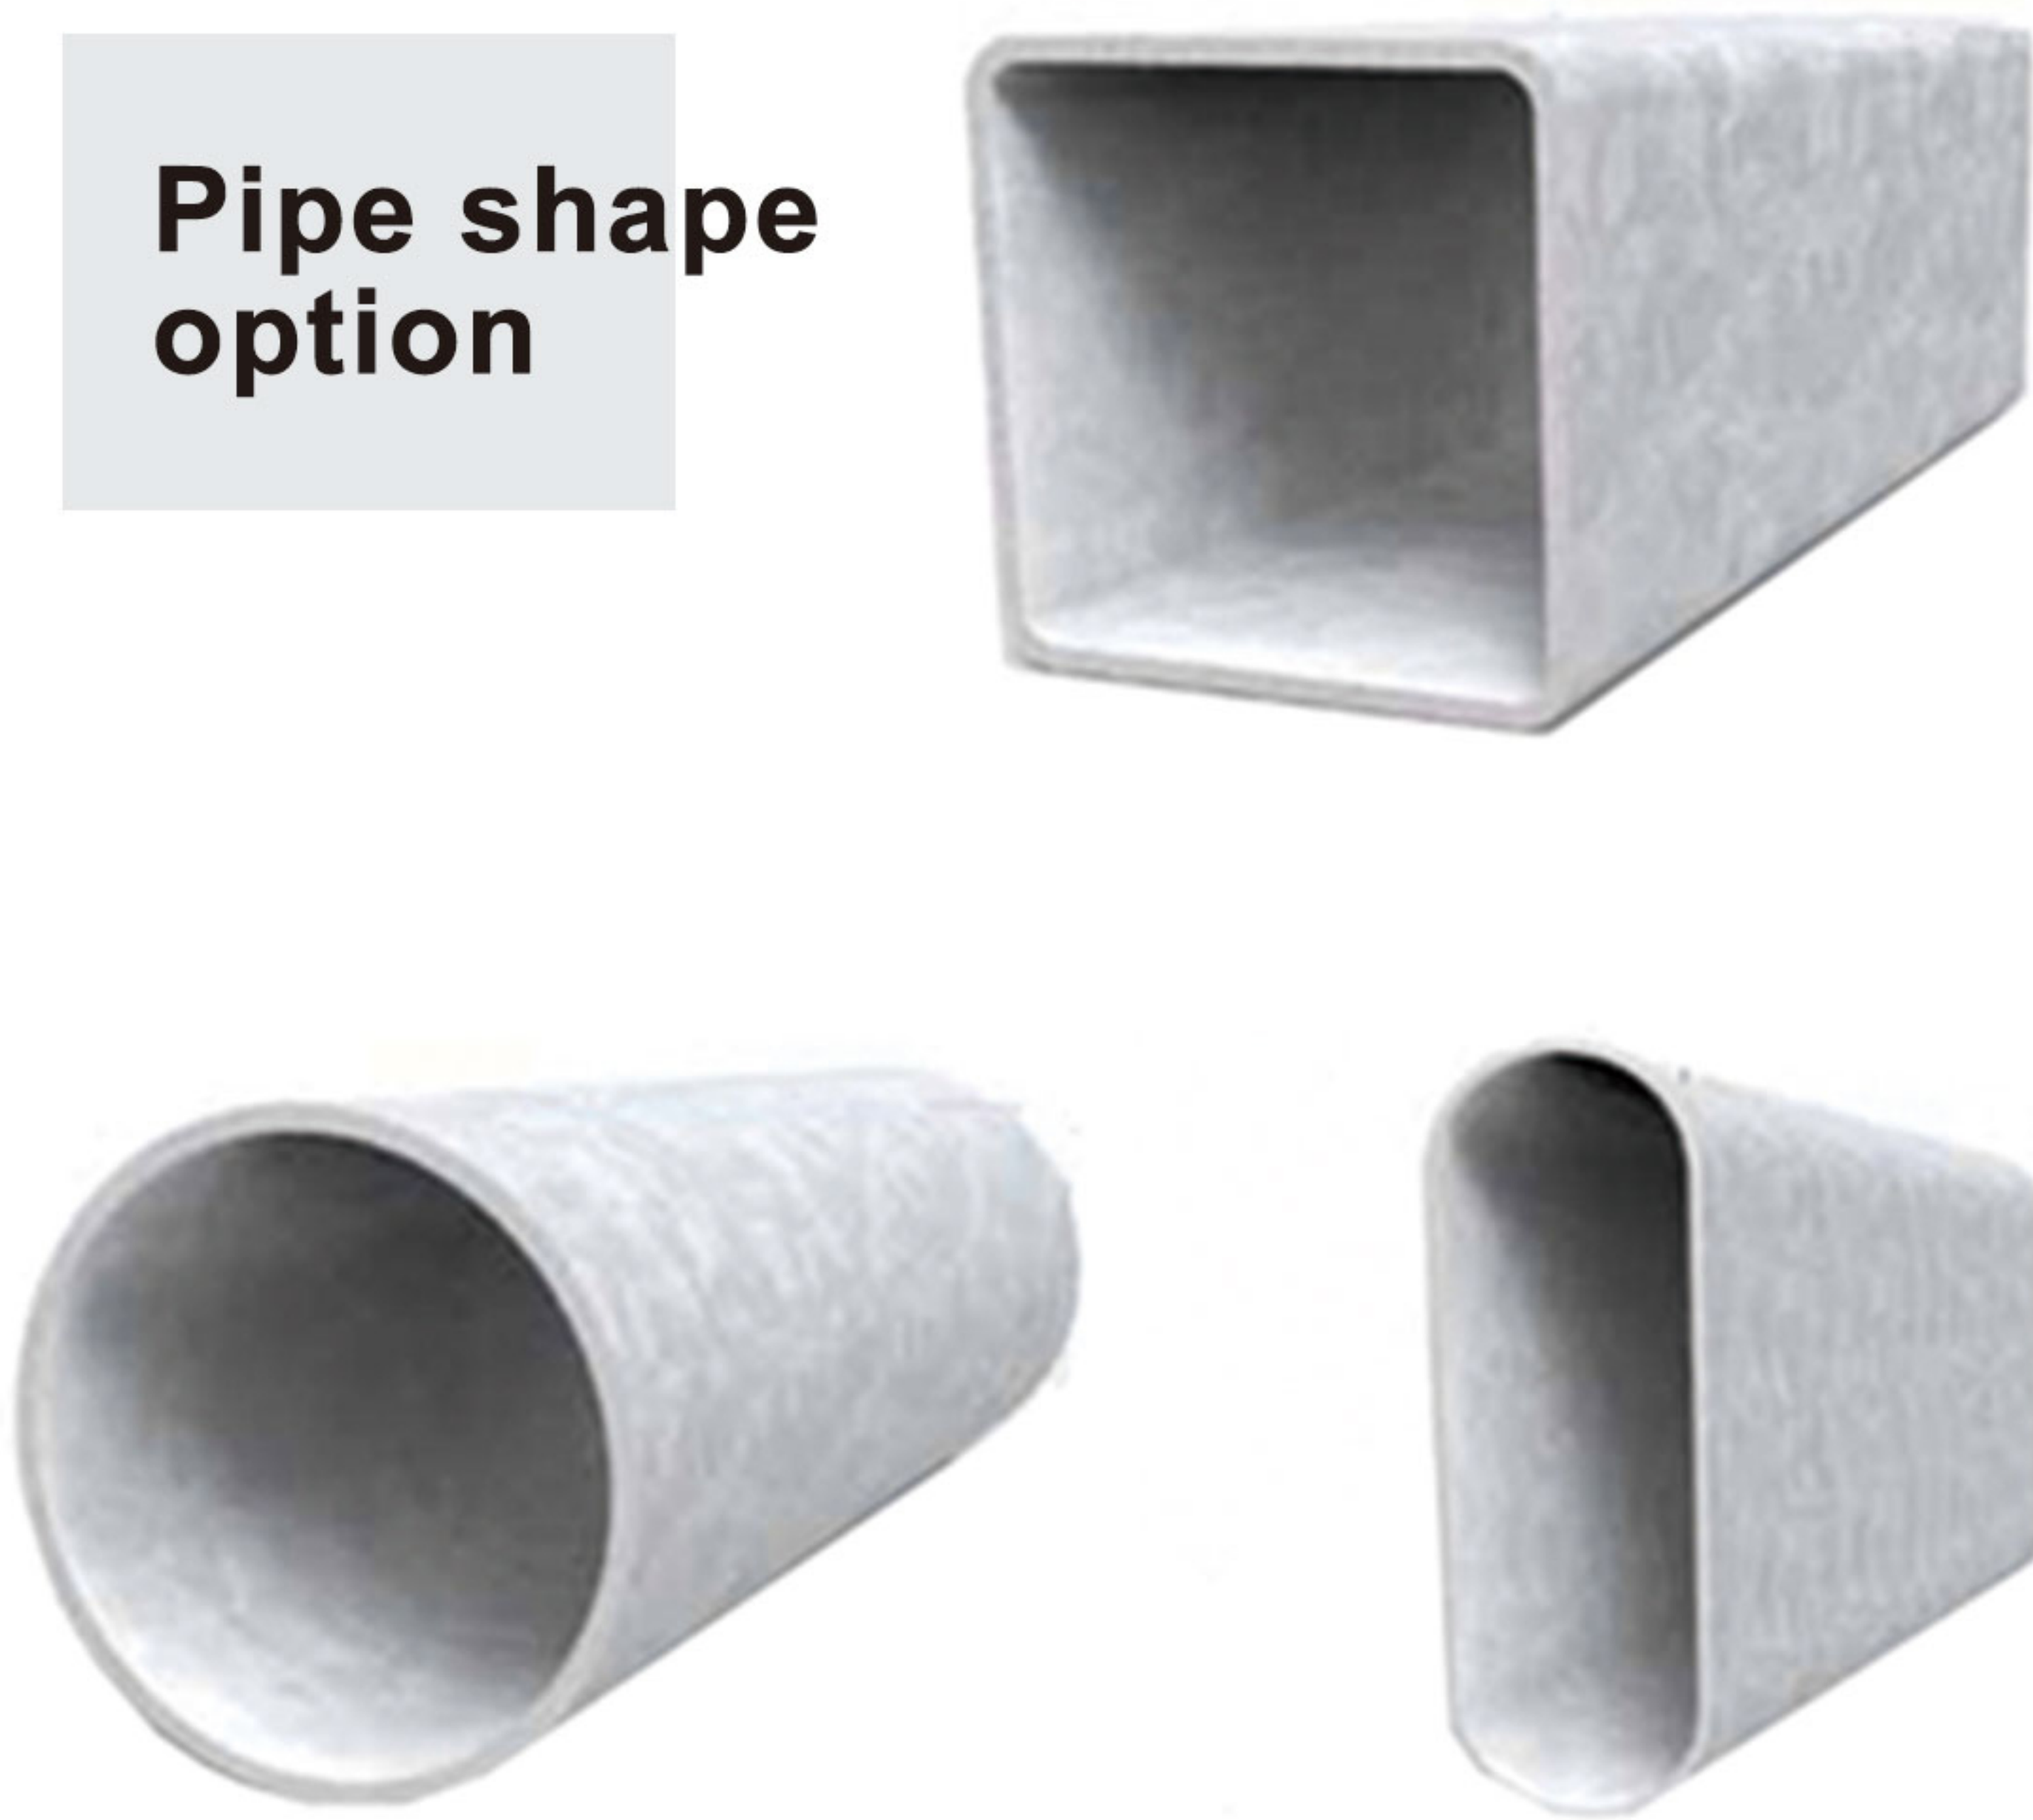

All wire is welded on the frame
Strong, durable, long lasting
Quick and easy to install
100% fire-proof and rot-proof
Smooth to handle due to no sharp corners/edges

LIVESTOCK PANEL

Width (mm)	1200-4800
Height (mm)	1100-2200
Wire Dia. (mm)	3.5 / 4.0 / 5.0
Weld Mesh (mm)	100 x 200
Pipe (mm)	32 / 33.4
Surface	HDG / PC

Pipe shape option

POST CAP

Real environment

Advantage:

- No welding necessary - cap fits tight
- Easy to install
- Durable and weather resistant
- Help to complete the look of any railing or exterior fence
- All caps can be placed on metal and wooden railings and exterior fences.

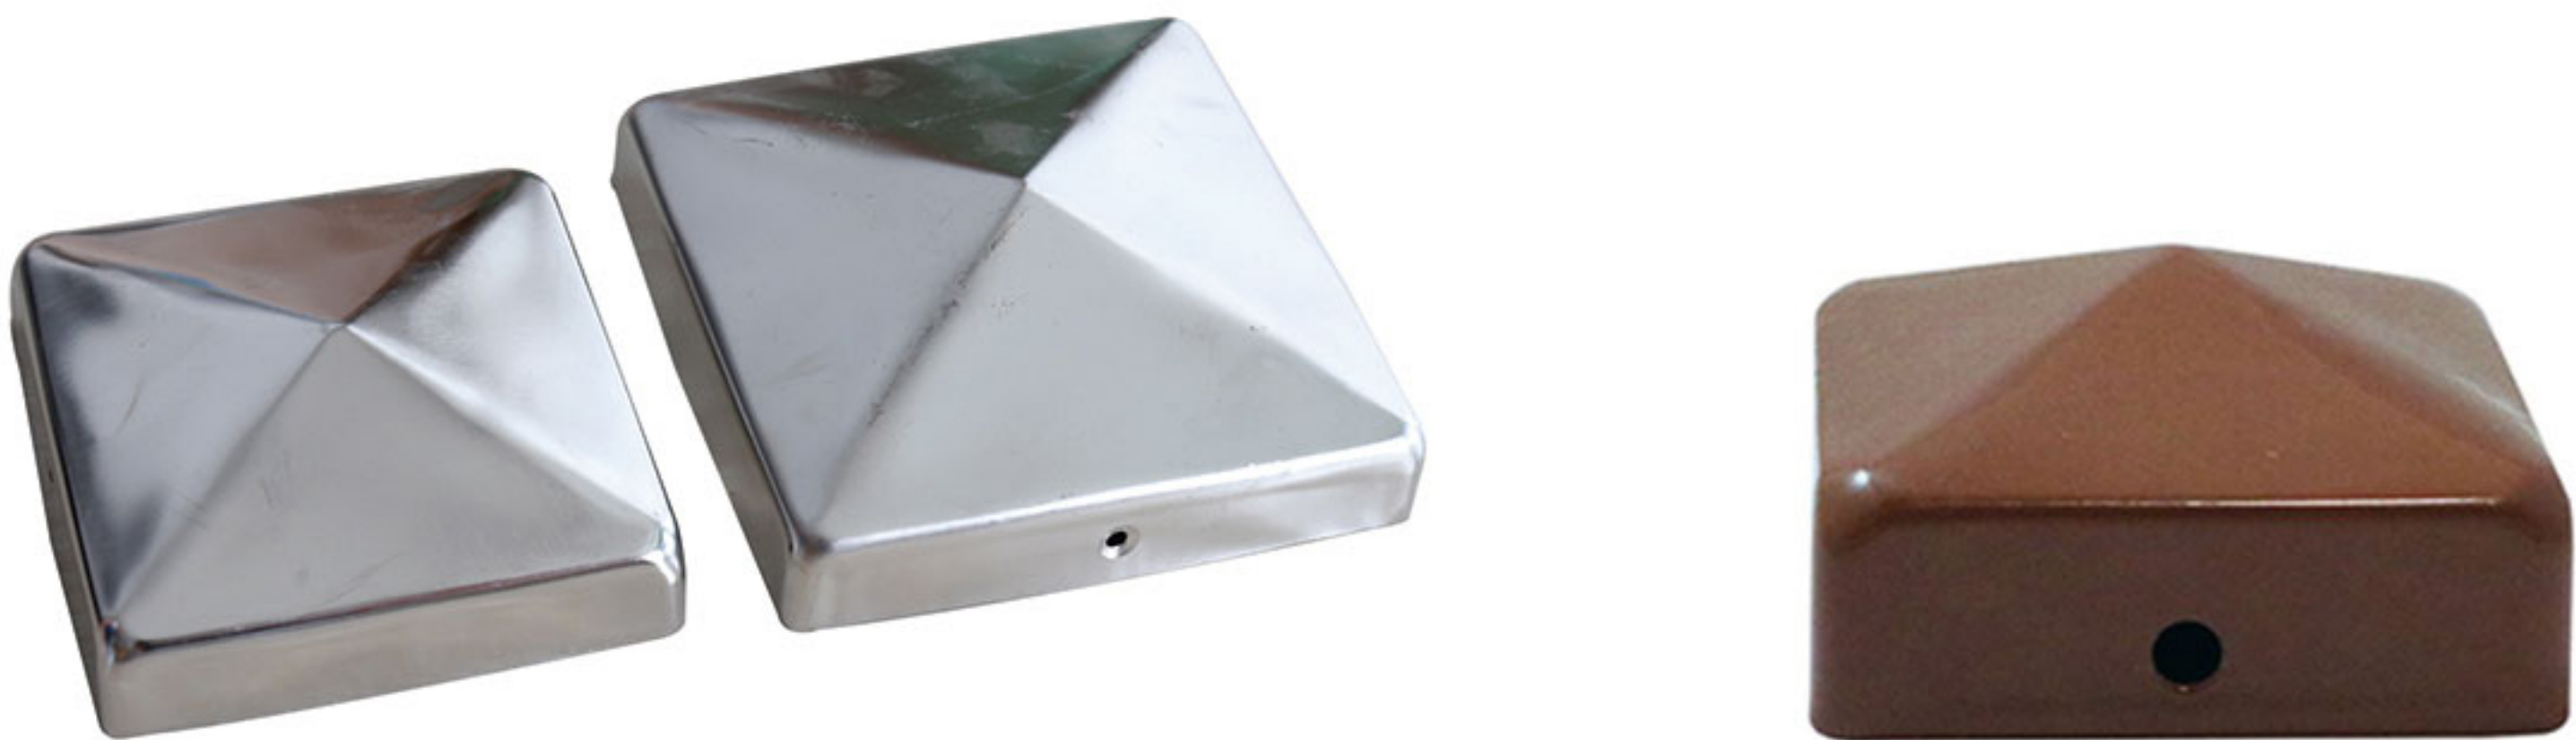

SQUARE POST CAP

Size (mm) 71 / 91 / 101 / 111 / 116 / 121

Thickness (mm) 0.8 / 1.0

Surface HDG / SS / AL

Custom sizes and shapes are available

ROUND POST CAP

Size (mm) 60 / 80 / 100

Thickness (mm) 0.8 / 1.0

Surface HDG / SS / AL

Custom sizes and shapes are available

Related Products

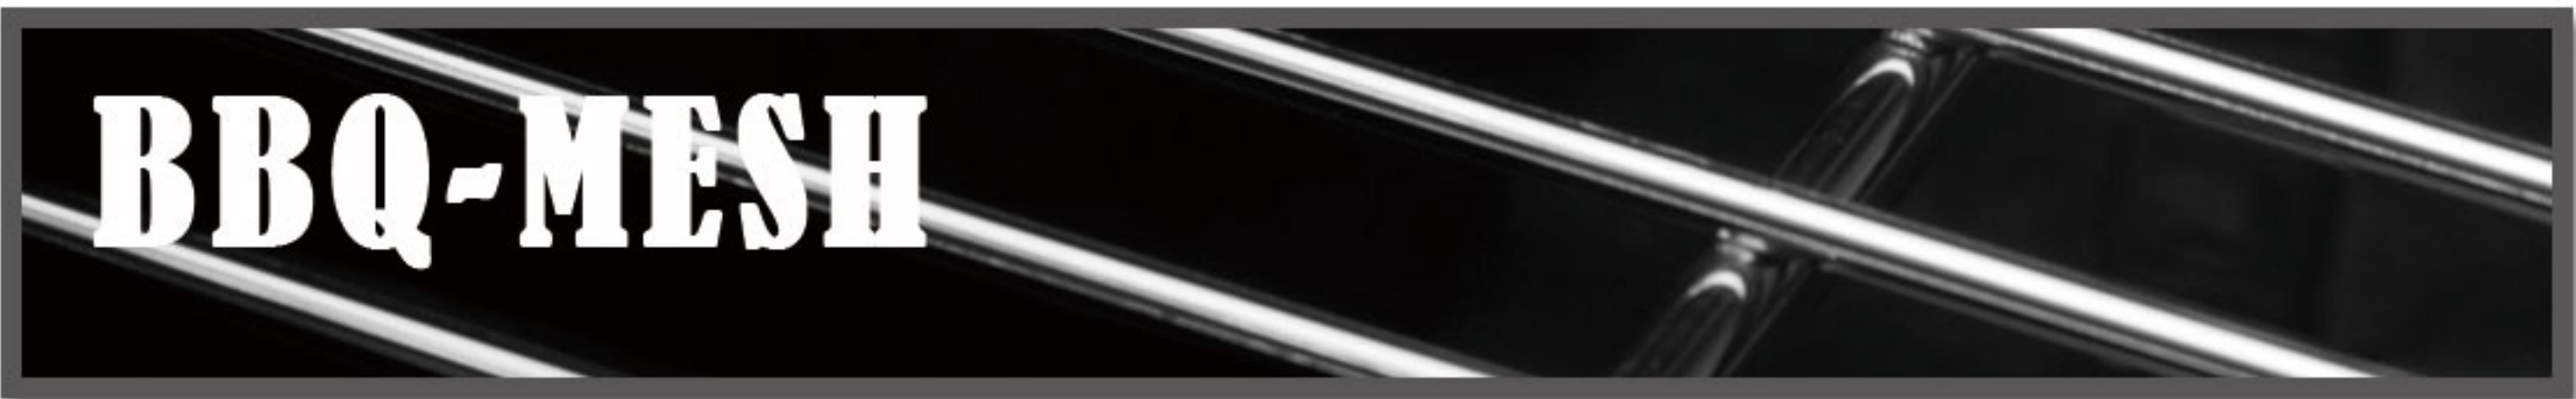

BBQ MESH

Real environment

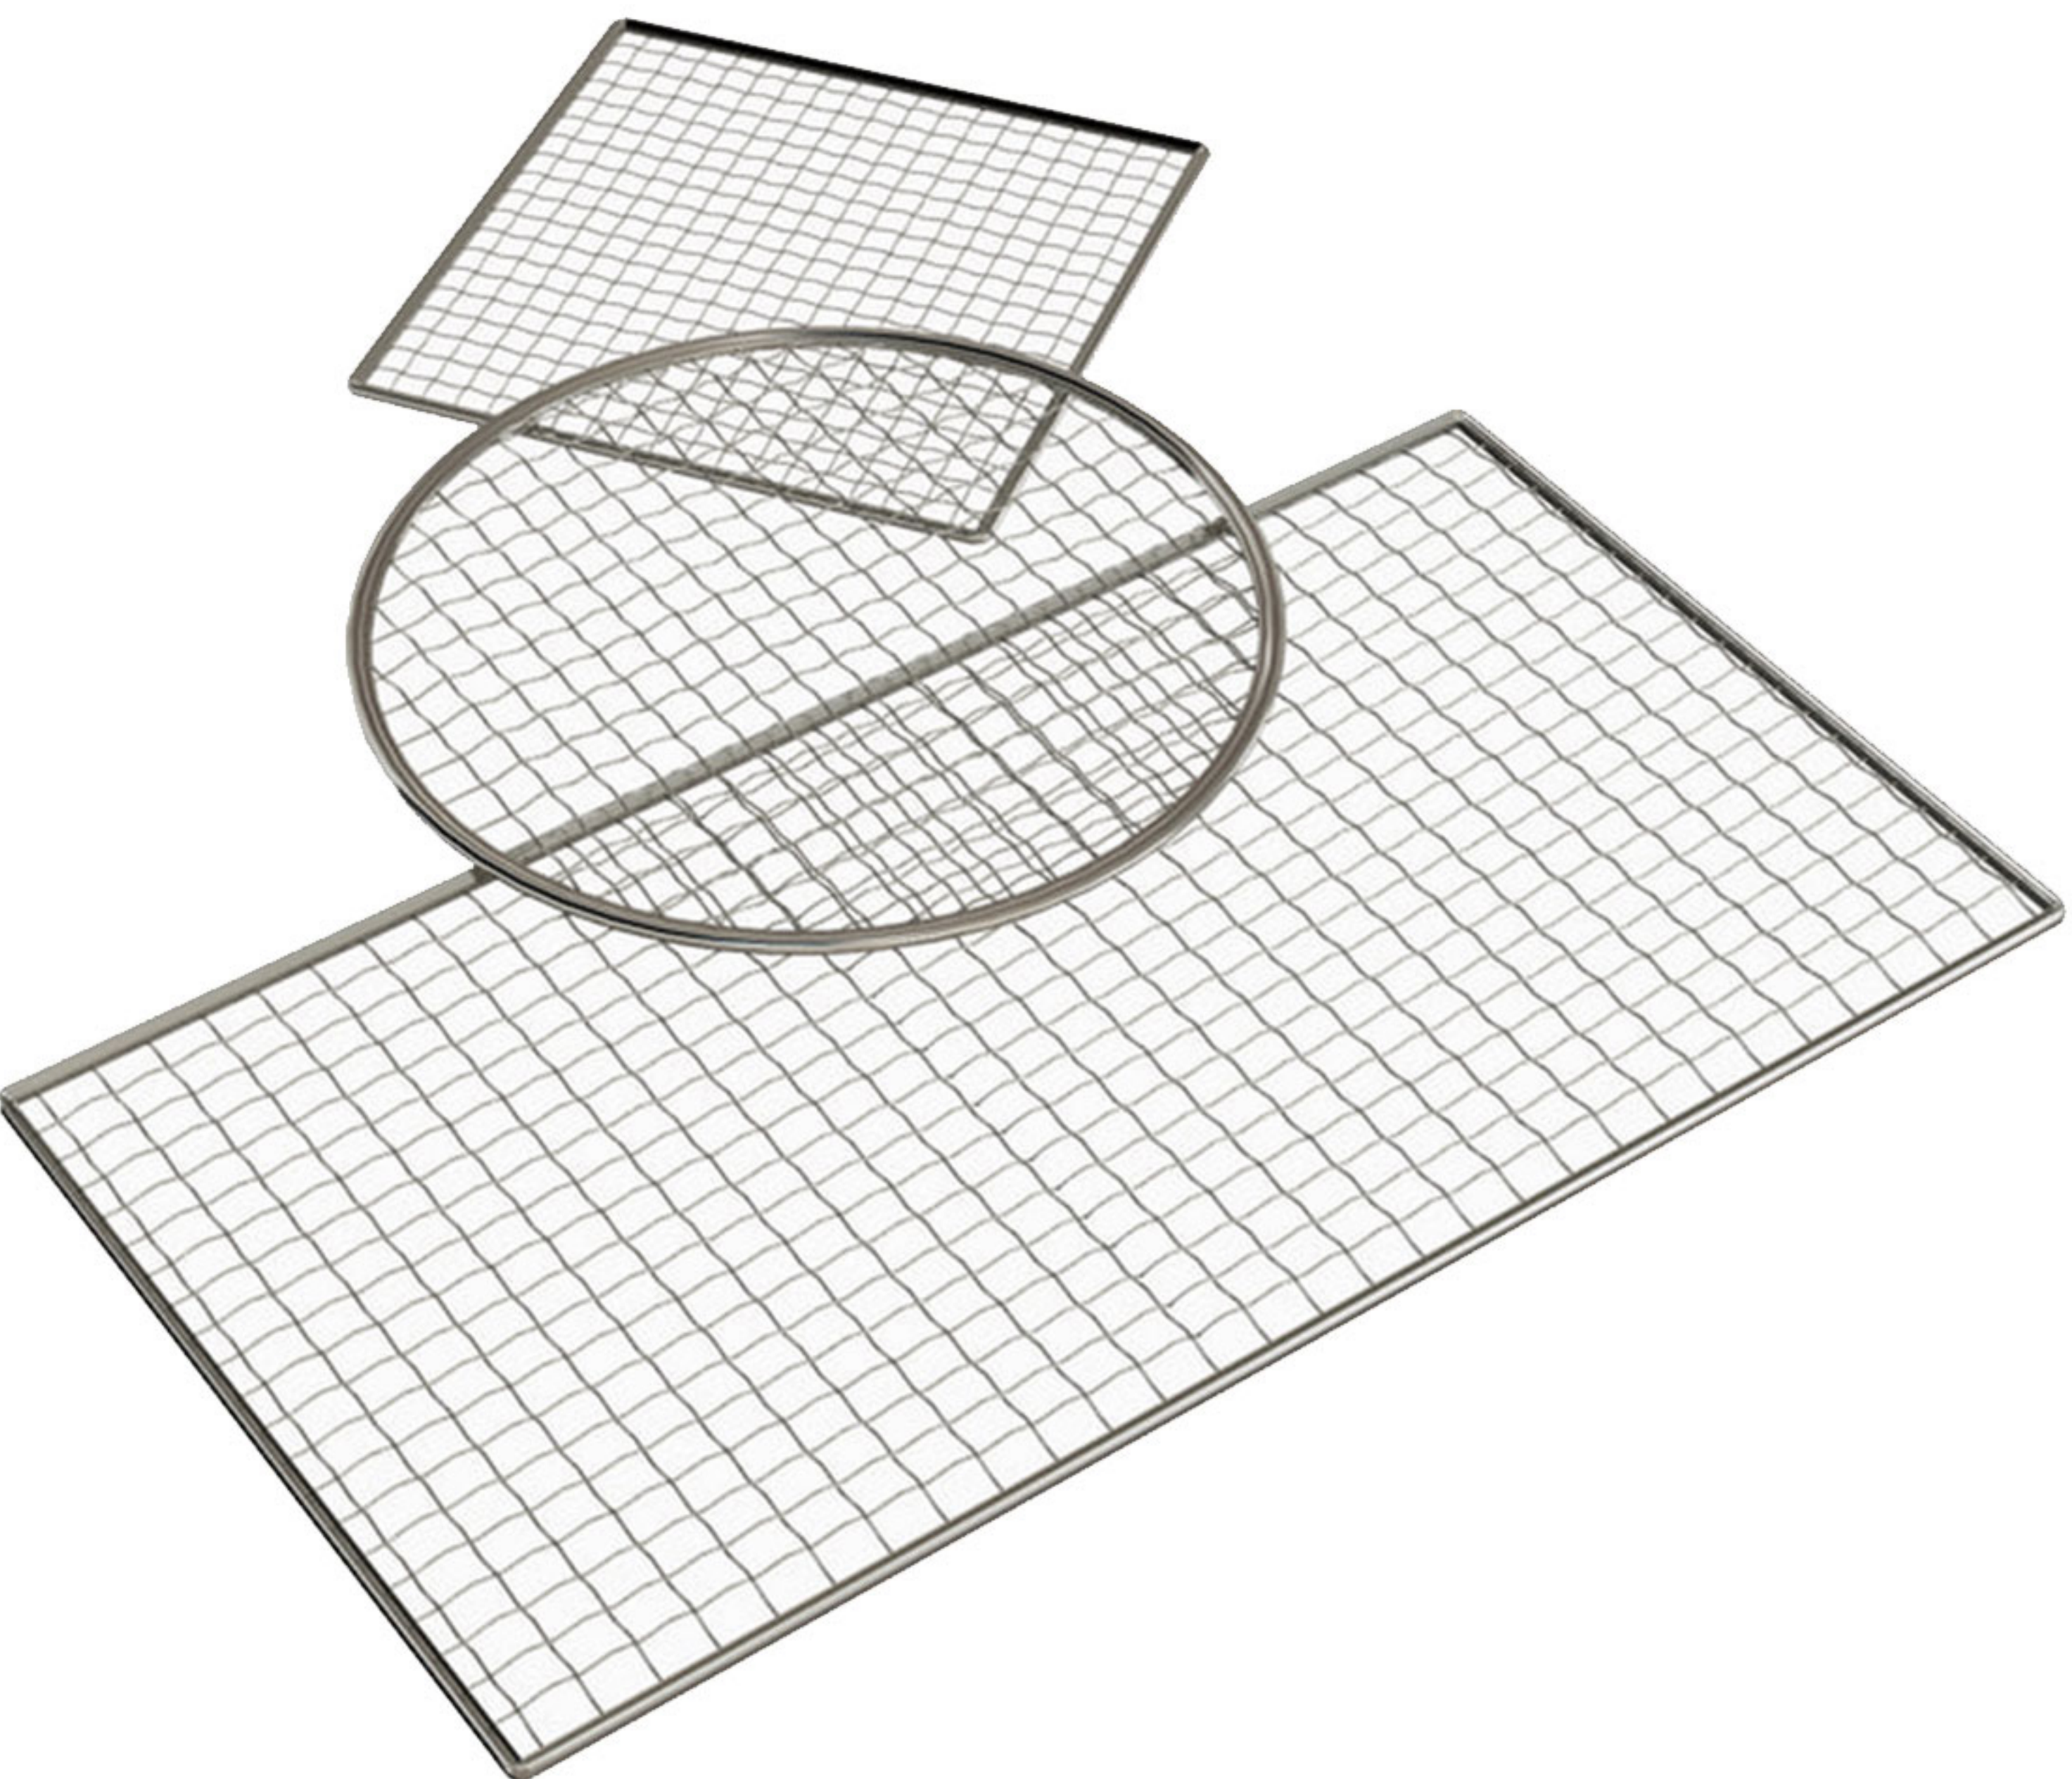

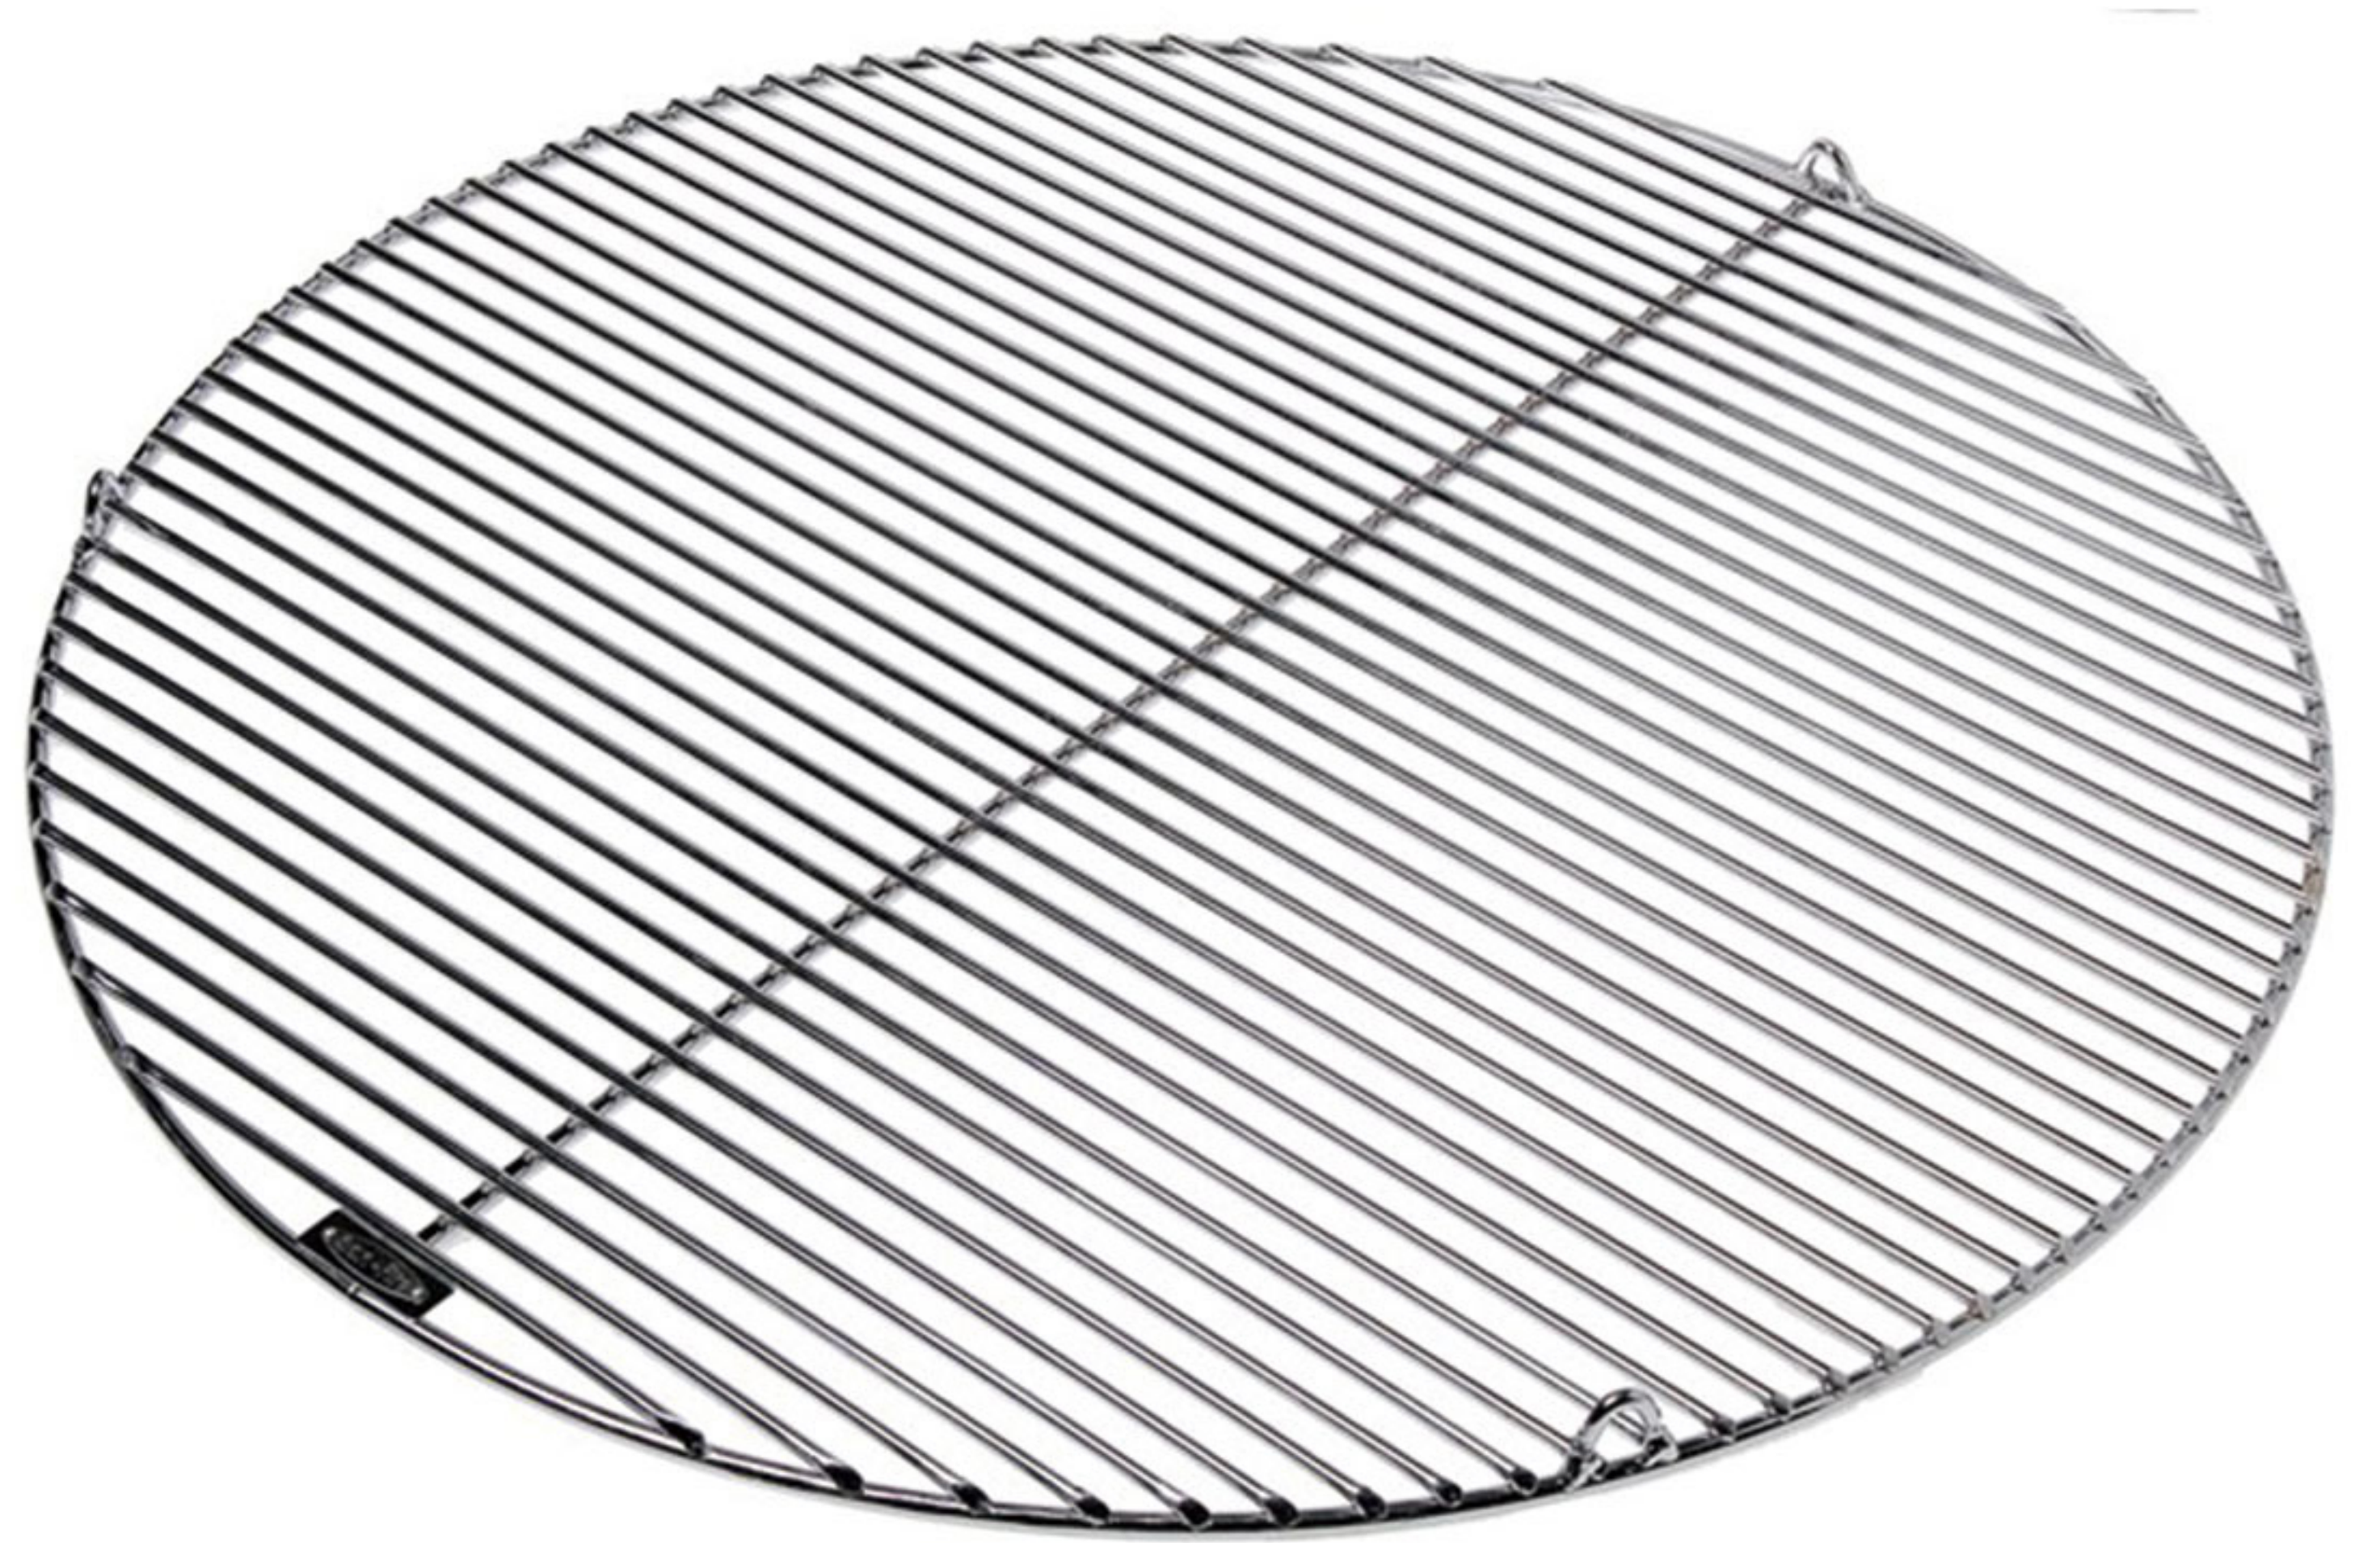

Non-stick characteristic

Food-safe, non-toxic, and odorless, you can be sure that eating is safe.
The mat is easy to clean as adhesion of food material is prevented.

Size (mm)	500-1200
Wire (mm)	2-6
Shape	Round, Square, Rectangle
Surface	SS

Custom sizes and shapes are available

WIRE STRAINER

Real environment

Description:

An in-line wire strainer allows you to keep up to 4,000 feet of high tensile wire tight by allowing you to re-tension the wire whenever it is required.

You need at least one wire strainer per fence wire, more strainers depending upon length of the wire.

Once installed you simply tighten the in-line wire strainer using a ratchet handle.

Advantage:

- Long life galvanised steel frame
- Robust, high quality locking clip
- Increased spool hub thickness provides extra strength
- Versatile use – traditionally for end of line straining or for in line straining by threading wire through strainer instead of tying an extra knot
- Suitable for up to 4mm gauge fence wire
- Fine adjustment and easy tightening action

WIRE STRAINER

Length (mm) 100 / 120 / 125

Width (mm) 30 / 35 / 45

Height (mm) 30 / 35 / 45

Dia. (mm) 1-5

Weight (g) 80 / 90 / 100 / 120 / 180 / 200

Surface HDG / PC / EG

Custom sizes and shapes are available

BIRD SPIKE

Real environment

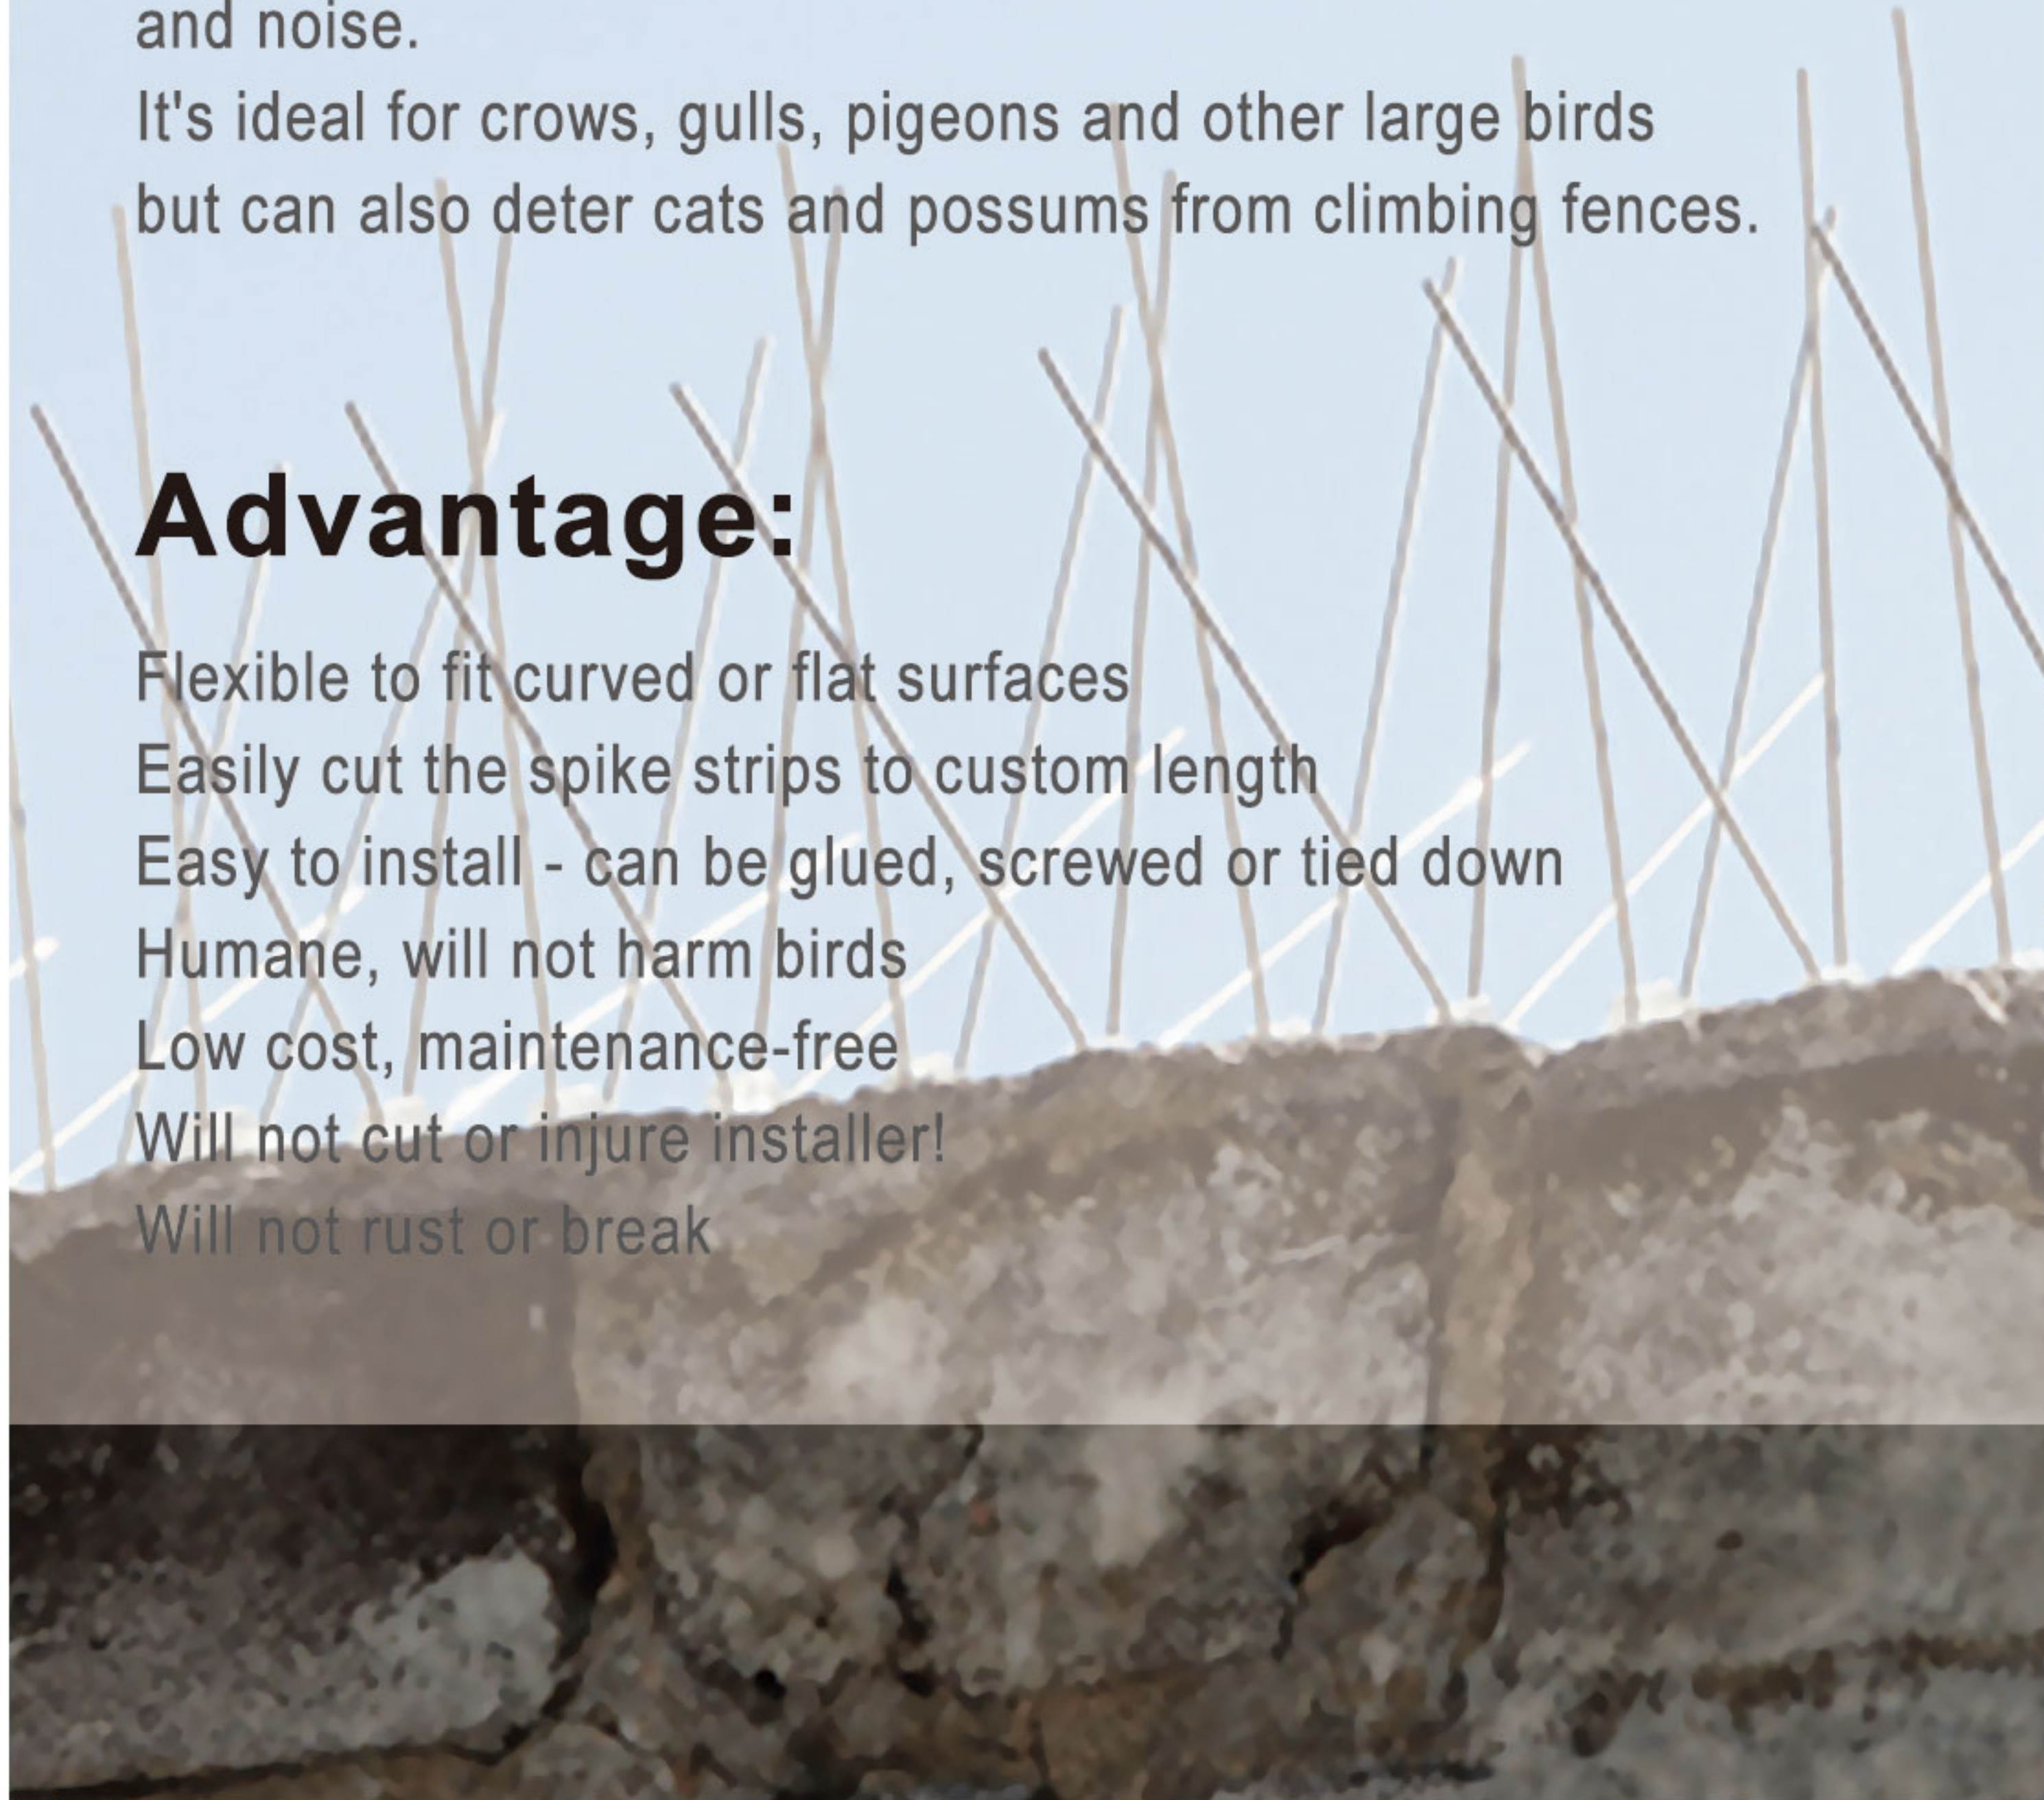

Description:

Pest deterrent spikes are an excellent and cost-effective way to deter birds from landing or roosting on your home or property with its stainless steel pointed spikes that act as a barrier. Placed along edges and surfaces where birds like to perch, these humane spike strips prevent pests from causing mess and noise. It's ideal for crows, gulls, pigeons and other large birds but can also deter cats and possums from climbing fences.

Advantage:

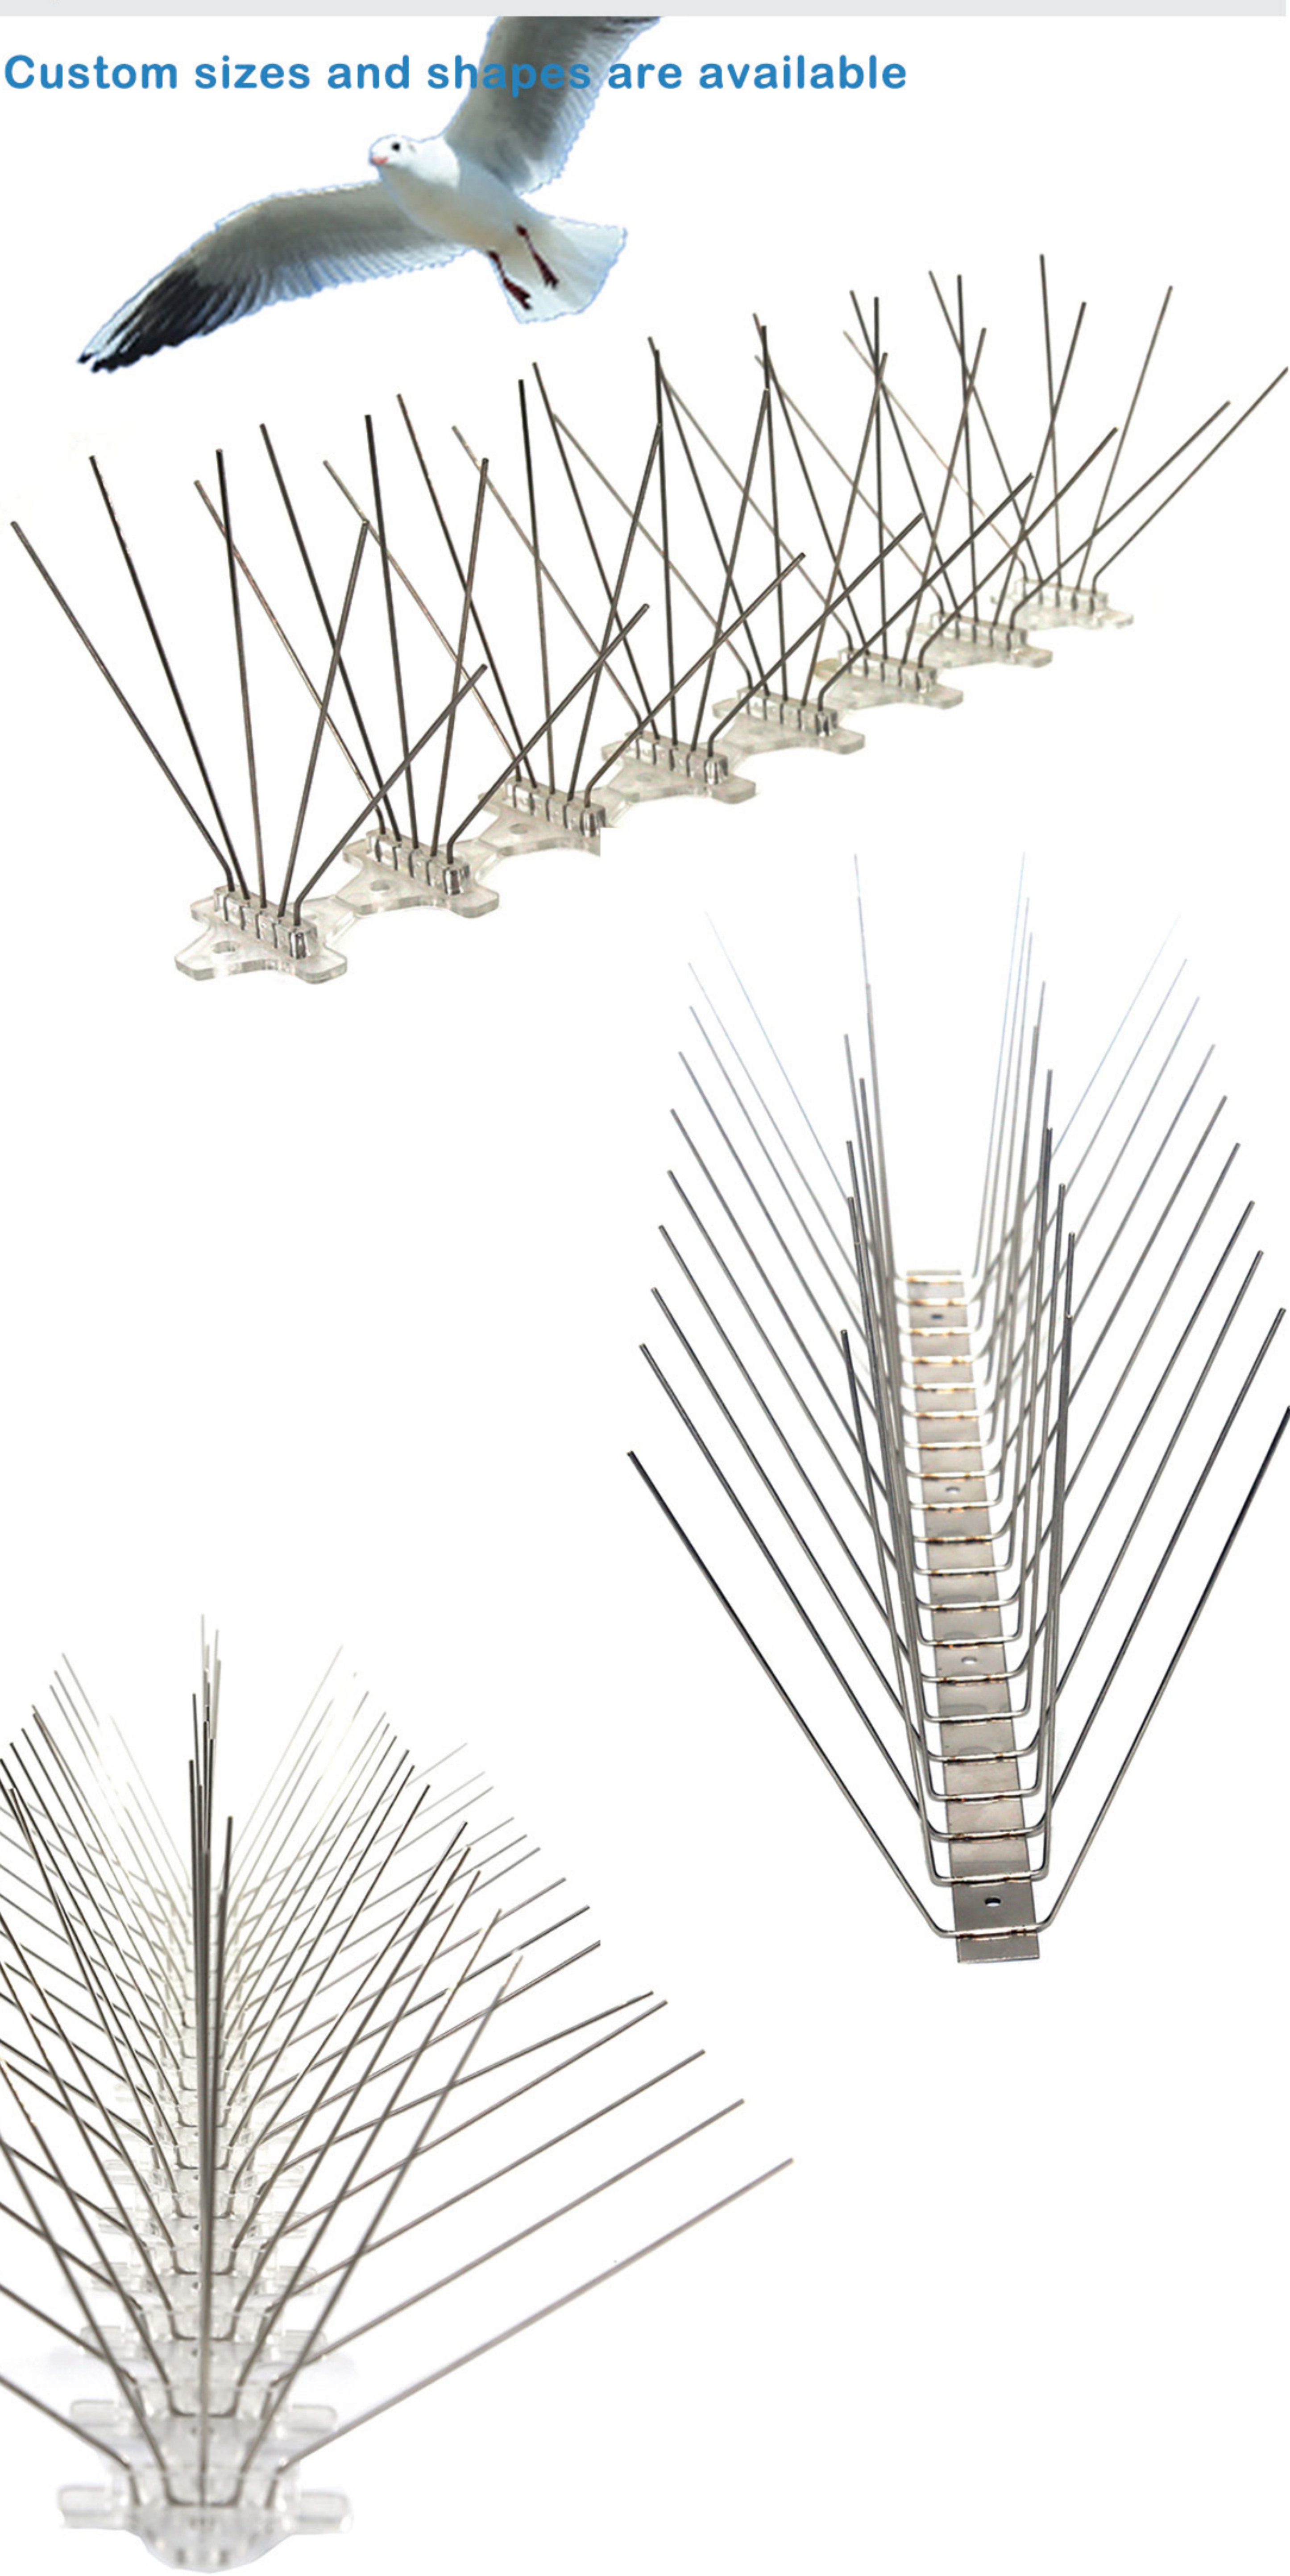

- Flexible to fit curved or flat surfaces
- Easily cut the spike strips to custom length
- Easy to install - can be glued, screwed or tied down
- Humane, will not harm birds
- Low cost, maintenance-free
- Will not cut or injure installer!
- Will not rust or break

BIRD SPIKE

Spike Length (mm)	110
Spike Dia. (mm)	1.3 / 1.5
Spike No. (pcs)	40 / 60 / 75
Base Length (mm)	300 - 600
Base Material	PC + UV
Spike Material	SS

Custom sizes and shapes are available

SOD STAPLE

Real environment

Description:

Sod Staples are designed to secure irrigation lines, PVC pipes, and landscape fabric in almost any outdoor application. These staples are reusable and made from steel for durability.

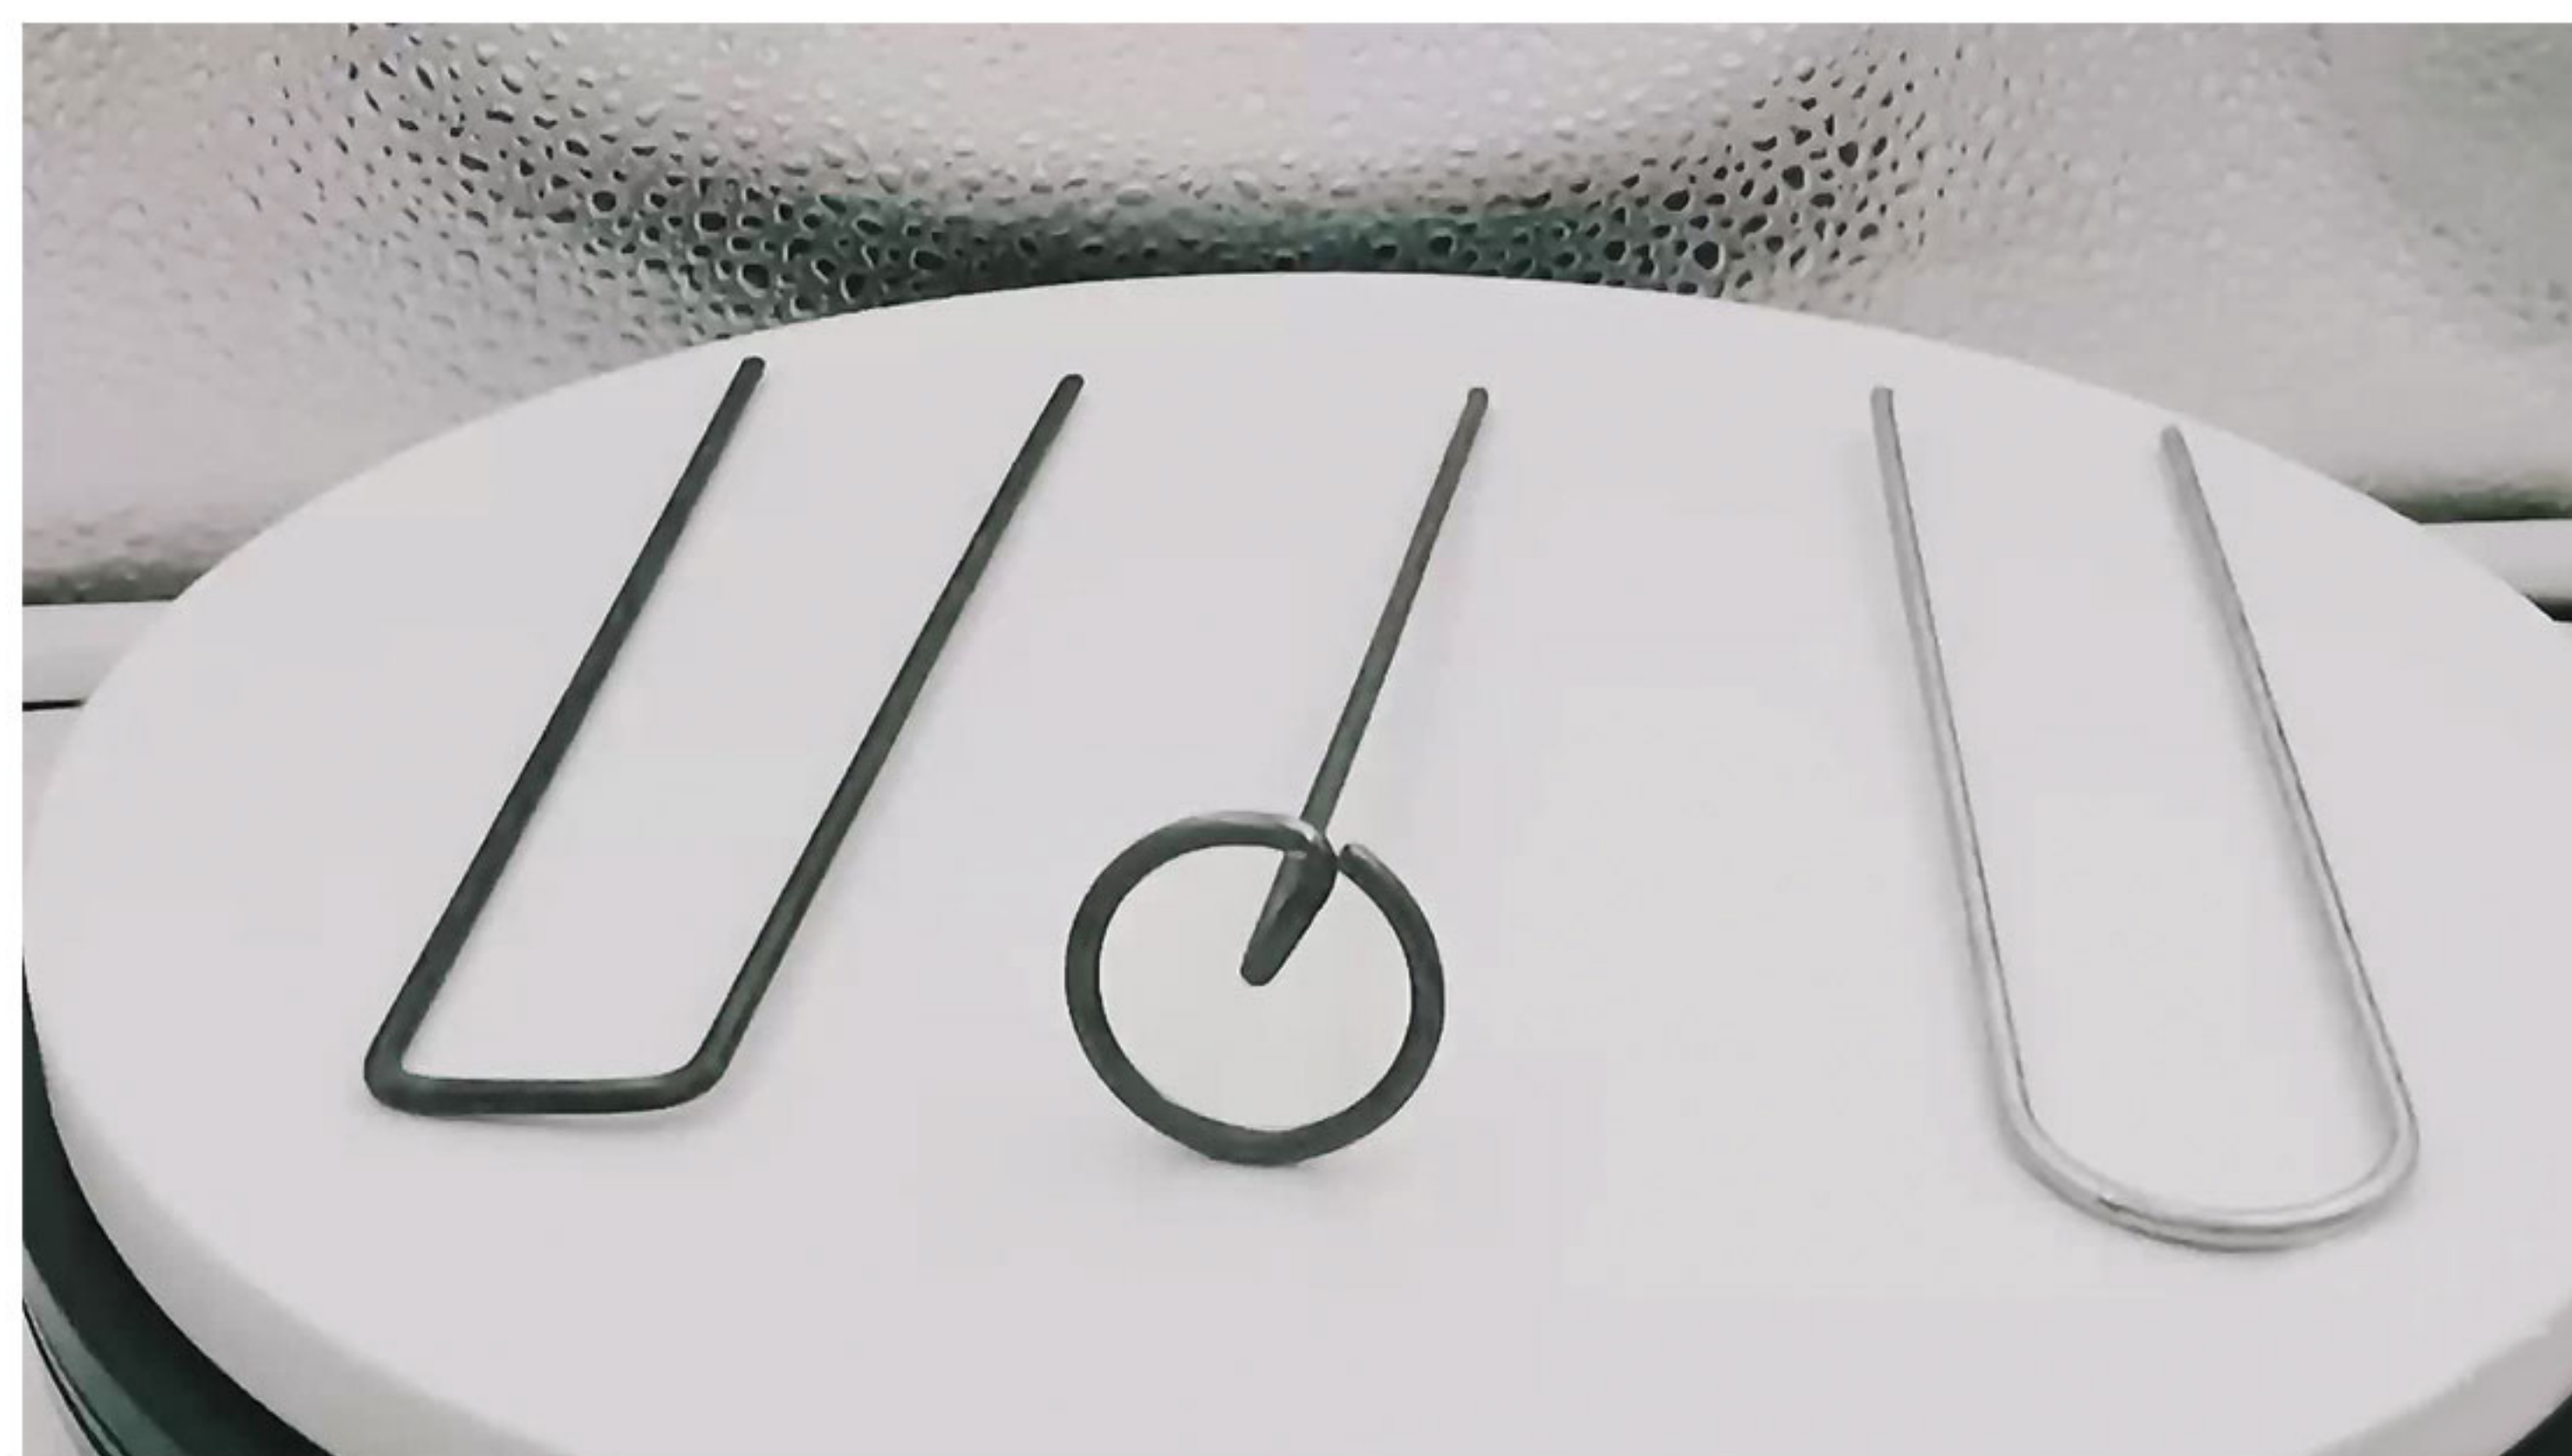

Advantage:

- Easy to fully insert into the ground
- Heavy duty and durable construction
- Suitable for anchoring of weed barrier fabric, ground tissues, hoses and cables
- Rust proof through galvanizing

SOD STAPLE

Length	4" - 12 "
Dia. (mm)	8 / 9 / 10 / 11 /12GA
Shape	U / V / G
Surface	Plain / PC / EG

Custom sizes and shapes are available

Supply Many kinds of ground pegs

DOG KENNEL

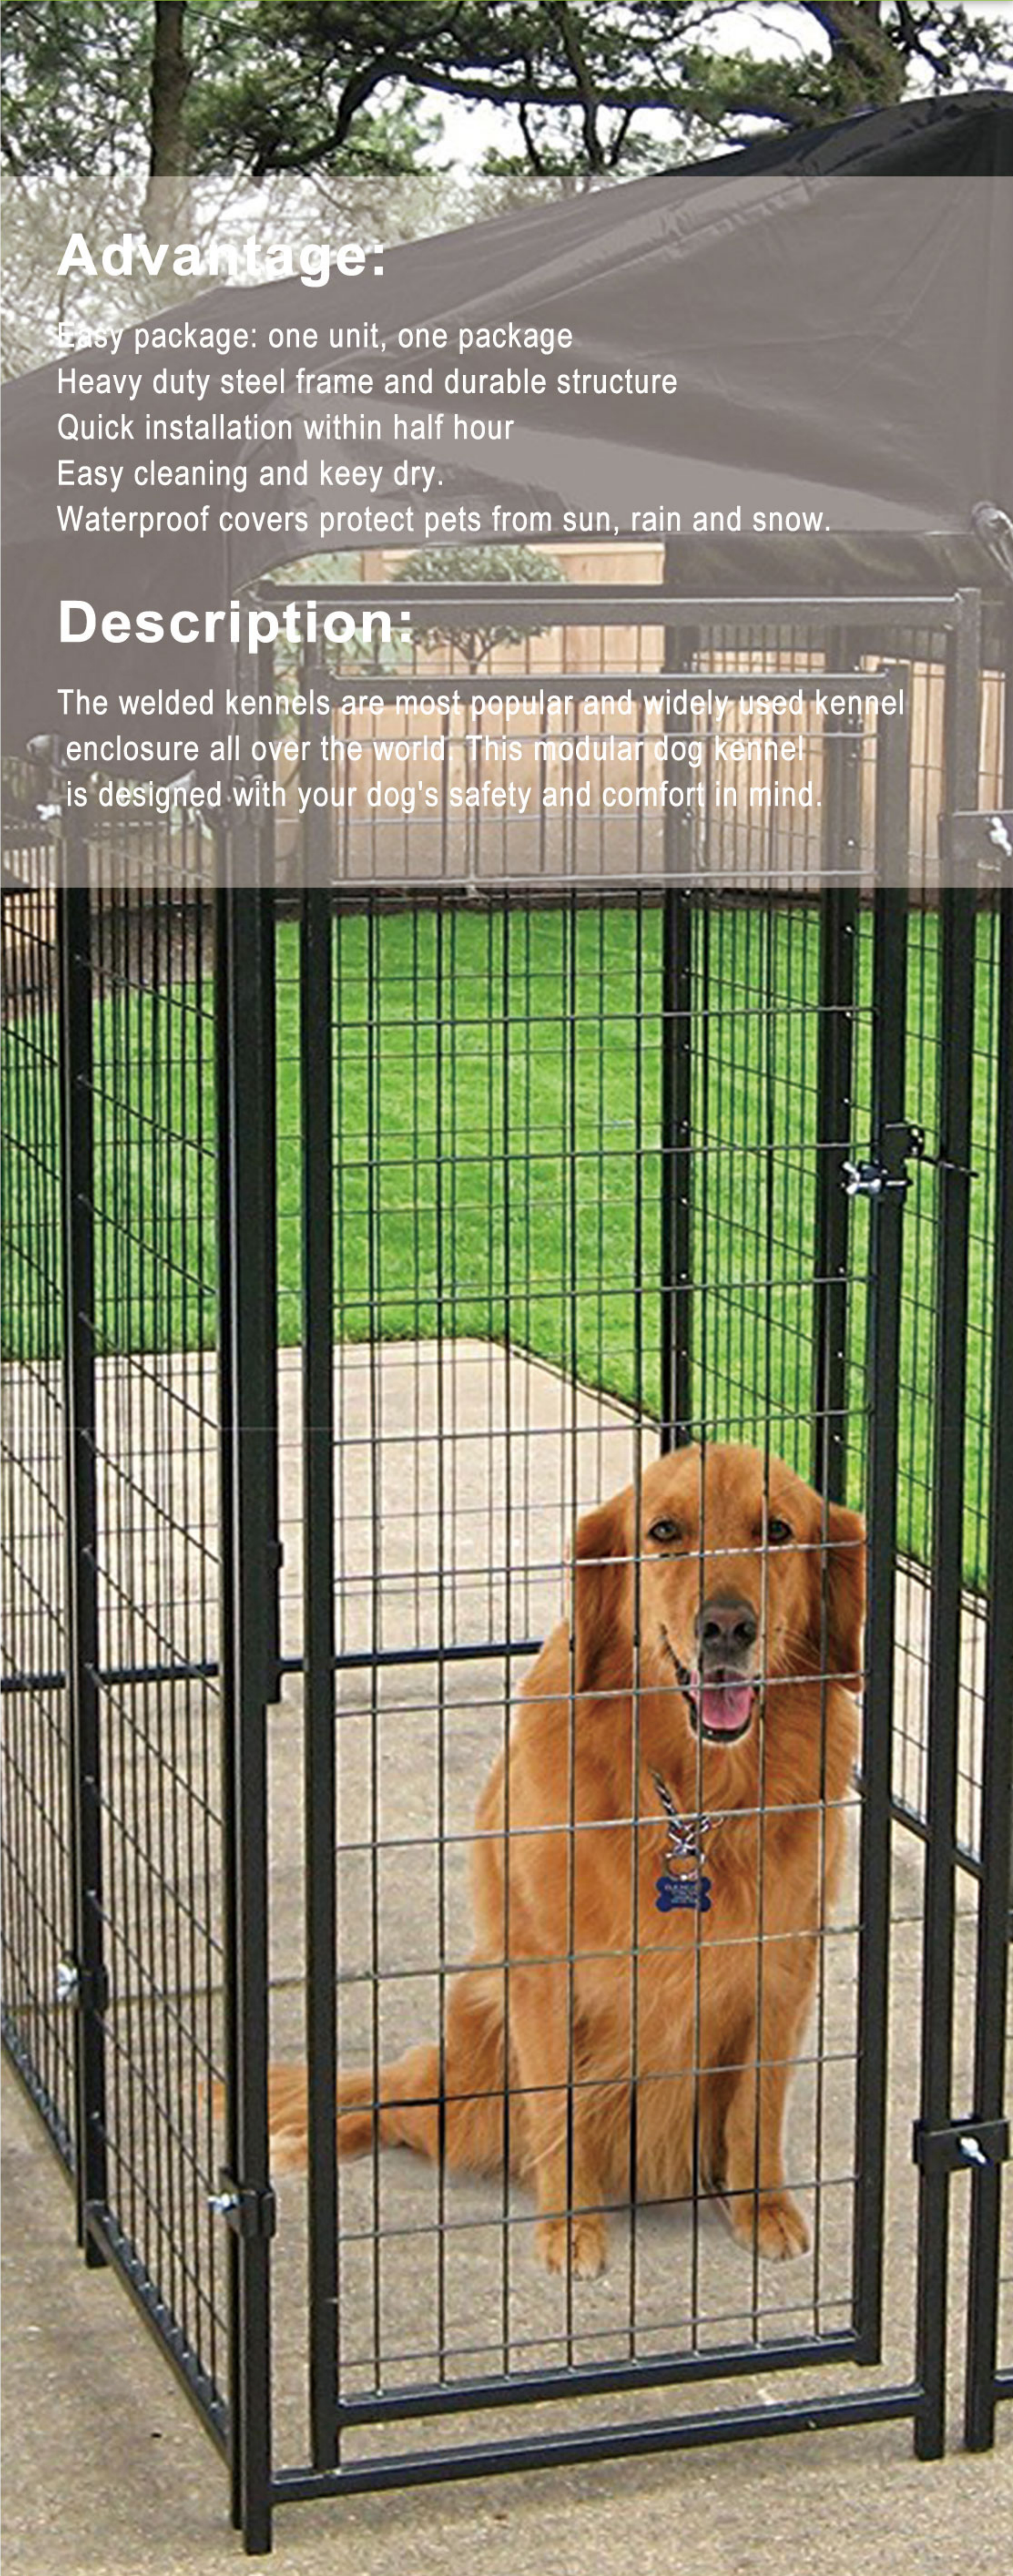

Real environment

Advantage:

Easy package: one unit, one package
Heavy duty steel frame and durable structure
Quick installation within half hour
Easy cleaning and keep dry.
Waterproof covers protect pets from sun, rain and snow.

Description:

The welded kennels are most popular and widely used kennel enclosure all over the world. This modular dog kennel is designed with your dog's safety and comfort in mind.

WELDED DOG KENNEL

Length	4' / 5' / 8' / 10'
Width	4' / 5' / 10'
Height	4' / 6'
Round tube dia.	1.25"
Square tube dia.	0.8" / 1.1"
Wire Dia. (mm)	8 / 11 / 12GA
Mesh Opening	2" x 4"
Surface	HDG / PC

Custom sizes and shapes are available

DOG KENNEL

Real environment

Description:

The chain link kennels are alternative to welded modular dog kennels.

Advantage:

- Free opening system for easy entrance.
- Medium to XX-large kennel sizes for almost all big sizes.
- Heavy duty 11 gauge to 13 gauge chain link meshes.
- Waterproof canvas cover for weather and UV resistance.
- Easy installation within half hour.

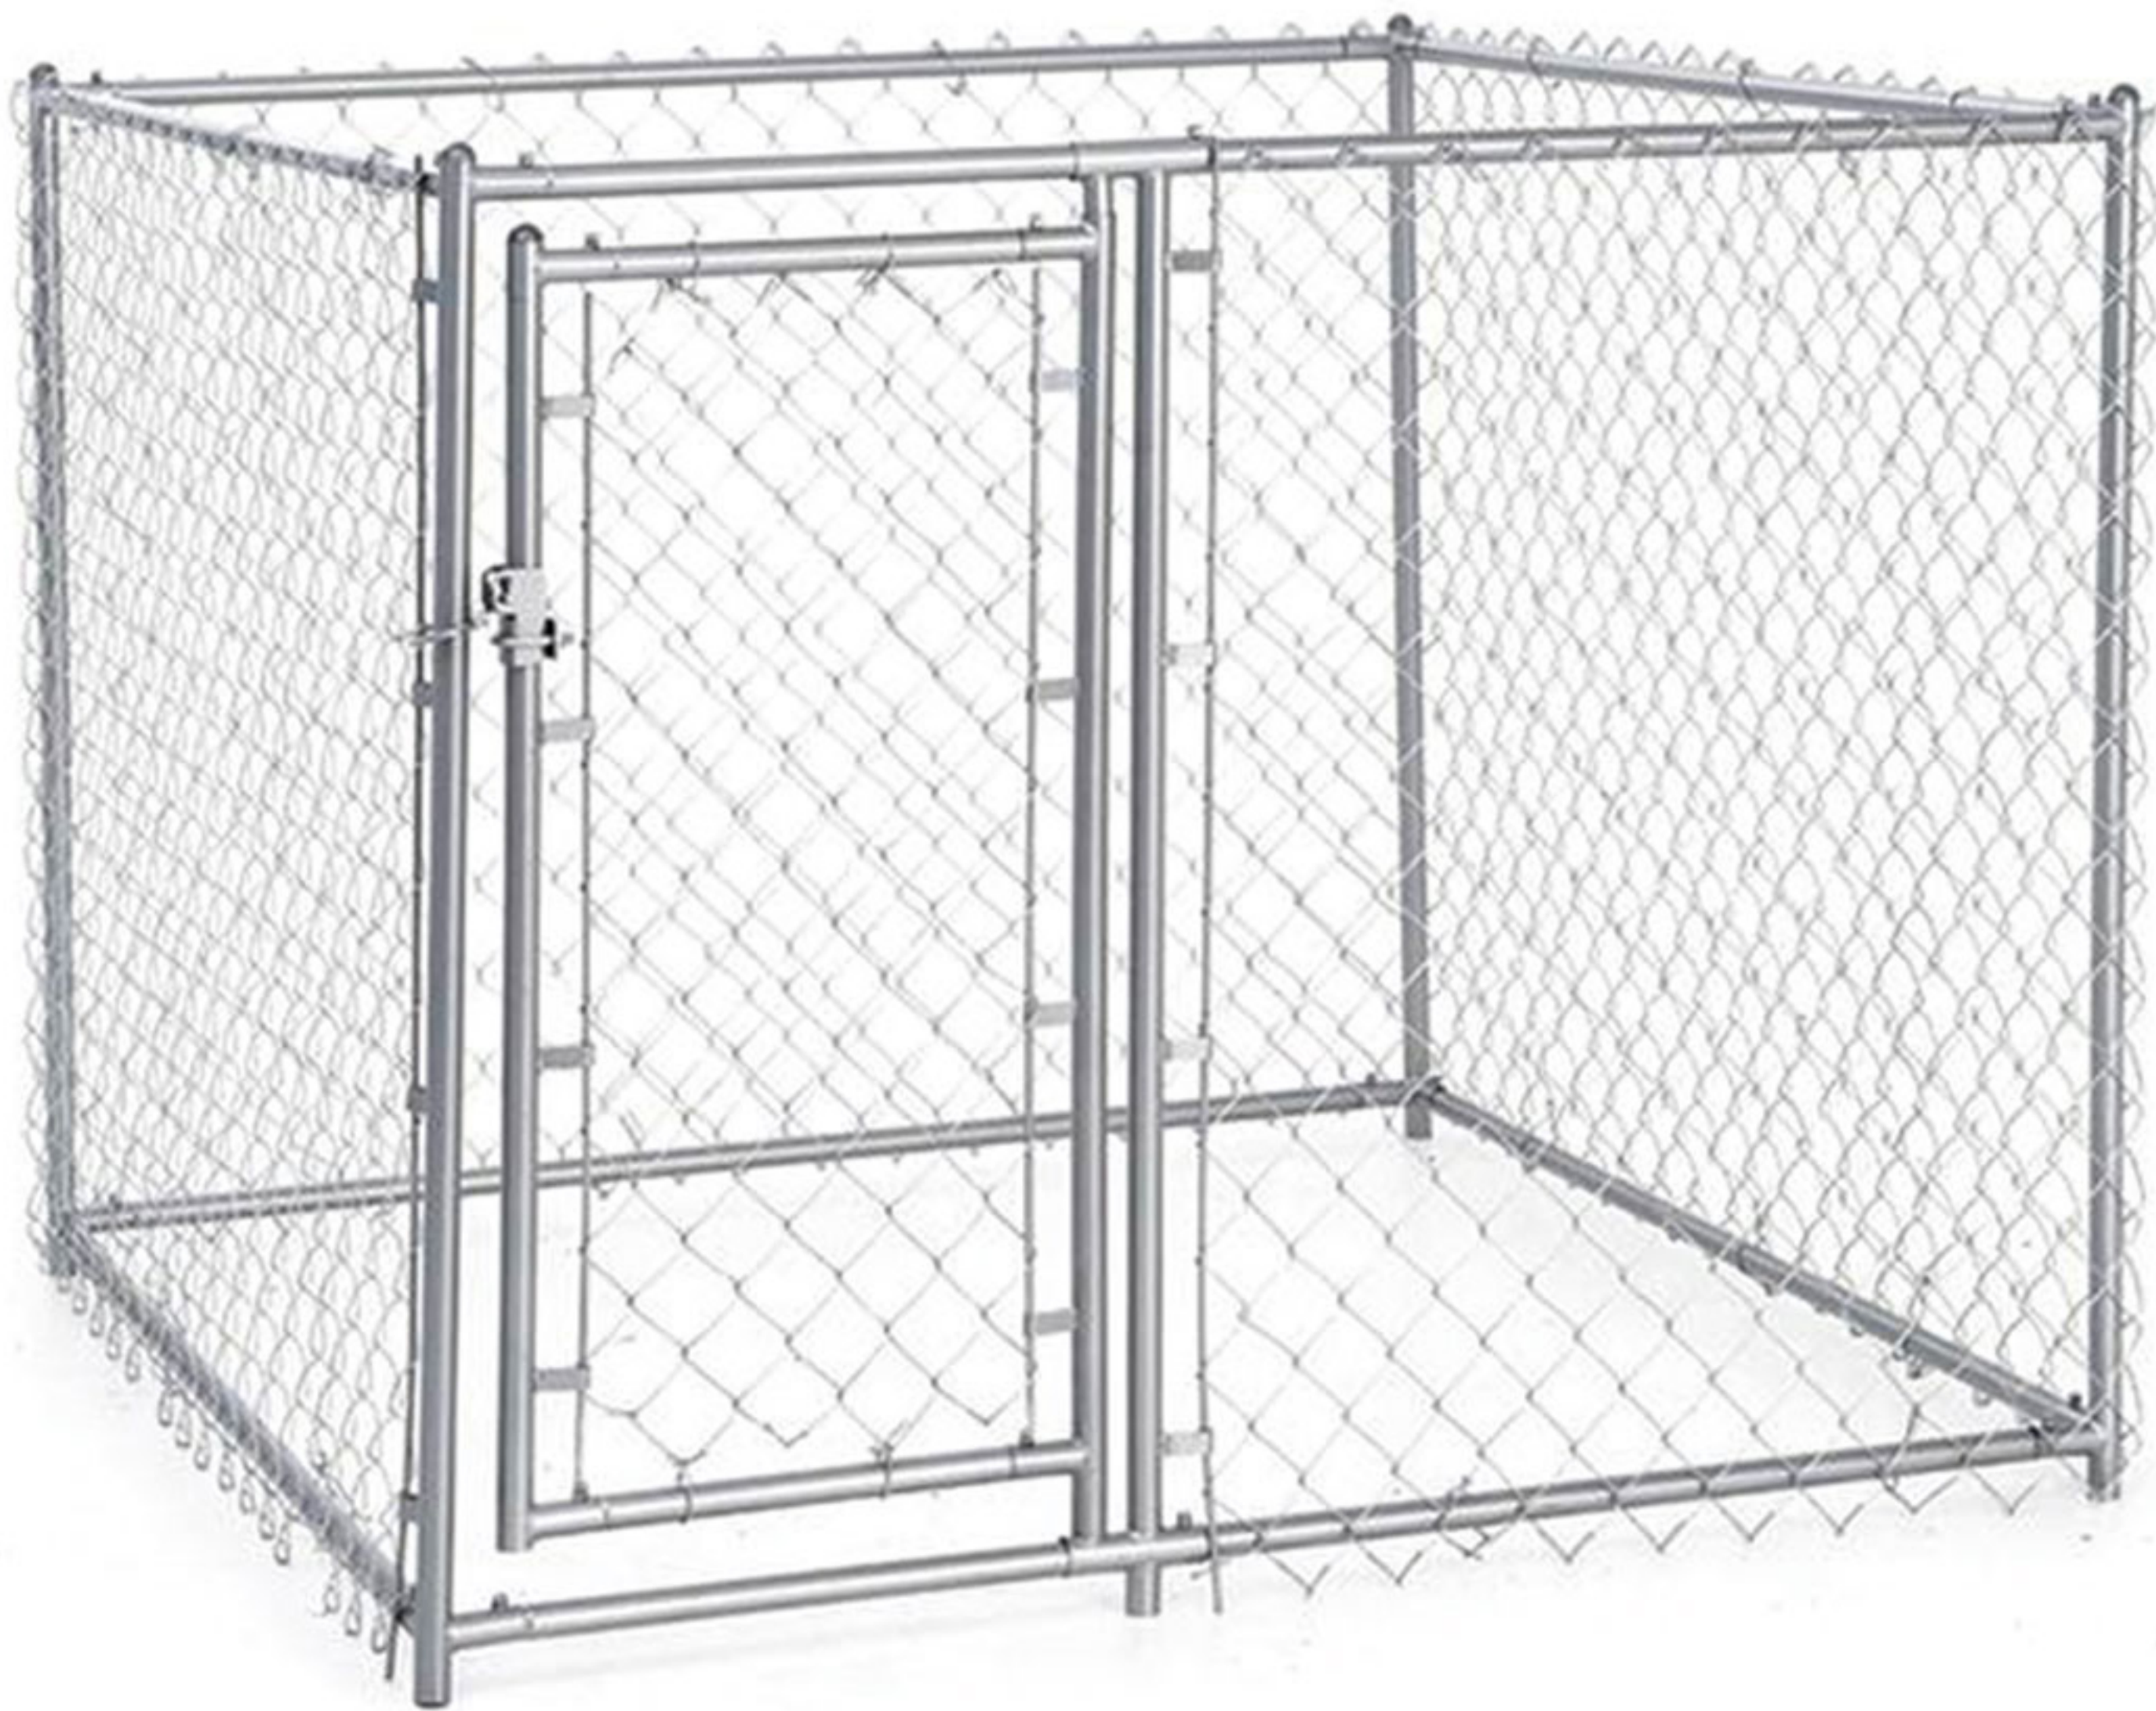

CHAIN LINK DOG KENNEL

Length	7.5' / 10' / 13'
Width	7.5' / 10' / 13'
Height	4' / 6' / 7.5' / 10'
Tube dia.	1.25"
Wire Dia. (mm)	11 / 12 / 13GA
Mesh Opening	24" x 2.4"
Surface	HDG / PC

Custom sizes and shapes are available

heavy duty exercise pens

BIKE STAND

Real environment

Description:

Bike stand is the fastest way to help you save space, eliminate clutter, and streamline your cycle storage!

The bike rack is easy to assemble in a breeze, allowing you easily keep your bikes upright and organized. Perfect for all standard child bikes, BMX, road and mountain bikes.

Advantage:

Allow bikes parked in the same or opposite directions
Protective powder coated/HDG surface not easily rust, prolonging it service life
Sturdy and durable construction by premium square and round steel tubing
Weather-resistant anti-rust steel construction allows it being used outdoors
Easy to assemble and could be applied at home, school or just personal use

BIKE STAND

Length	780-1650
Width (mm)	400
Height (mm)	240
Space	3-6
Surface	HDG / PC

Custom sizes and shapes are available

Description:

Nail stakes are primarily used to secure wood or metal forms to the ground in all flatwork applications. Additionally, they are commonly used for attaching screed bar holder clamps in flatwork finishing, securing landscape timbers, surveying stakes, string line guides, securing metal forms with pockets, and securing wood forming for flatwork.

Dia. 3/4", 5/8", 7/8, 1", 1-1/2"

Length 12", 18", 24", 30", 36", 42" 48"

Hole No. 4 / 8 / 10 / 12 / 14

Shape Round, Square, Flat

Surface Painted Black or Oiled

Custom sizes and shapes are available

Advantage:

Nail holes keep the nail in place during alignment

Eliminates splitting, twisting and splintering

Requires only one nail per stake, making board damage almost non-existent

Extremely strong

Chamfered ring machined in around the stake top prevents peening and increases stake life

SLAB BOLSTER

Real environment

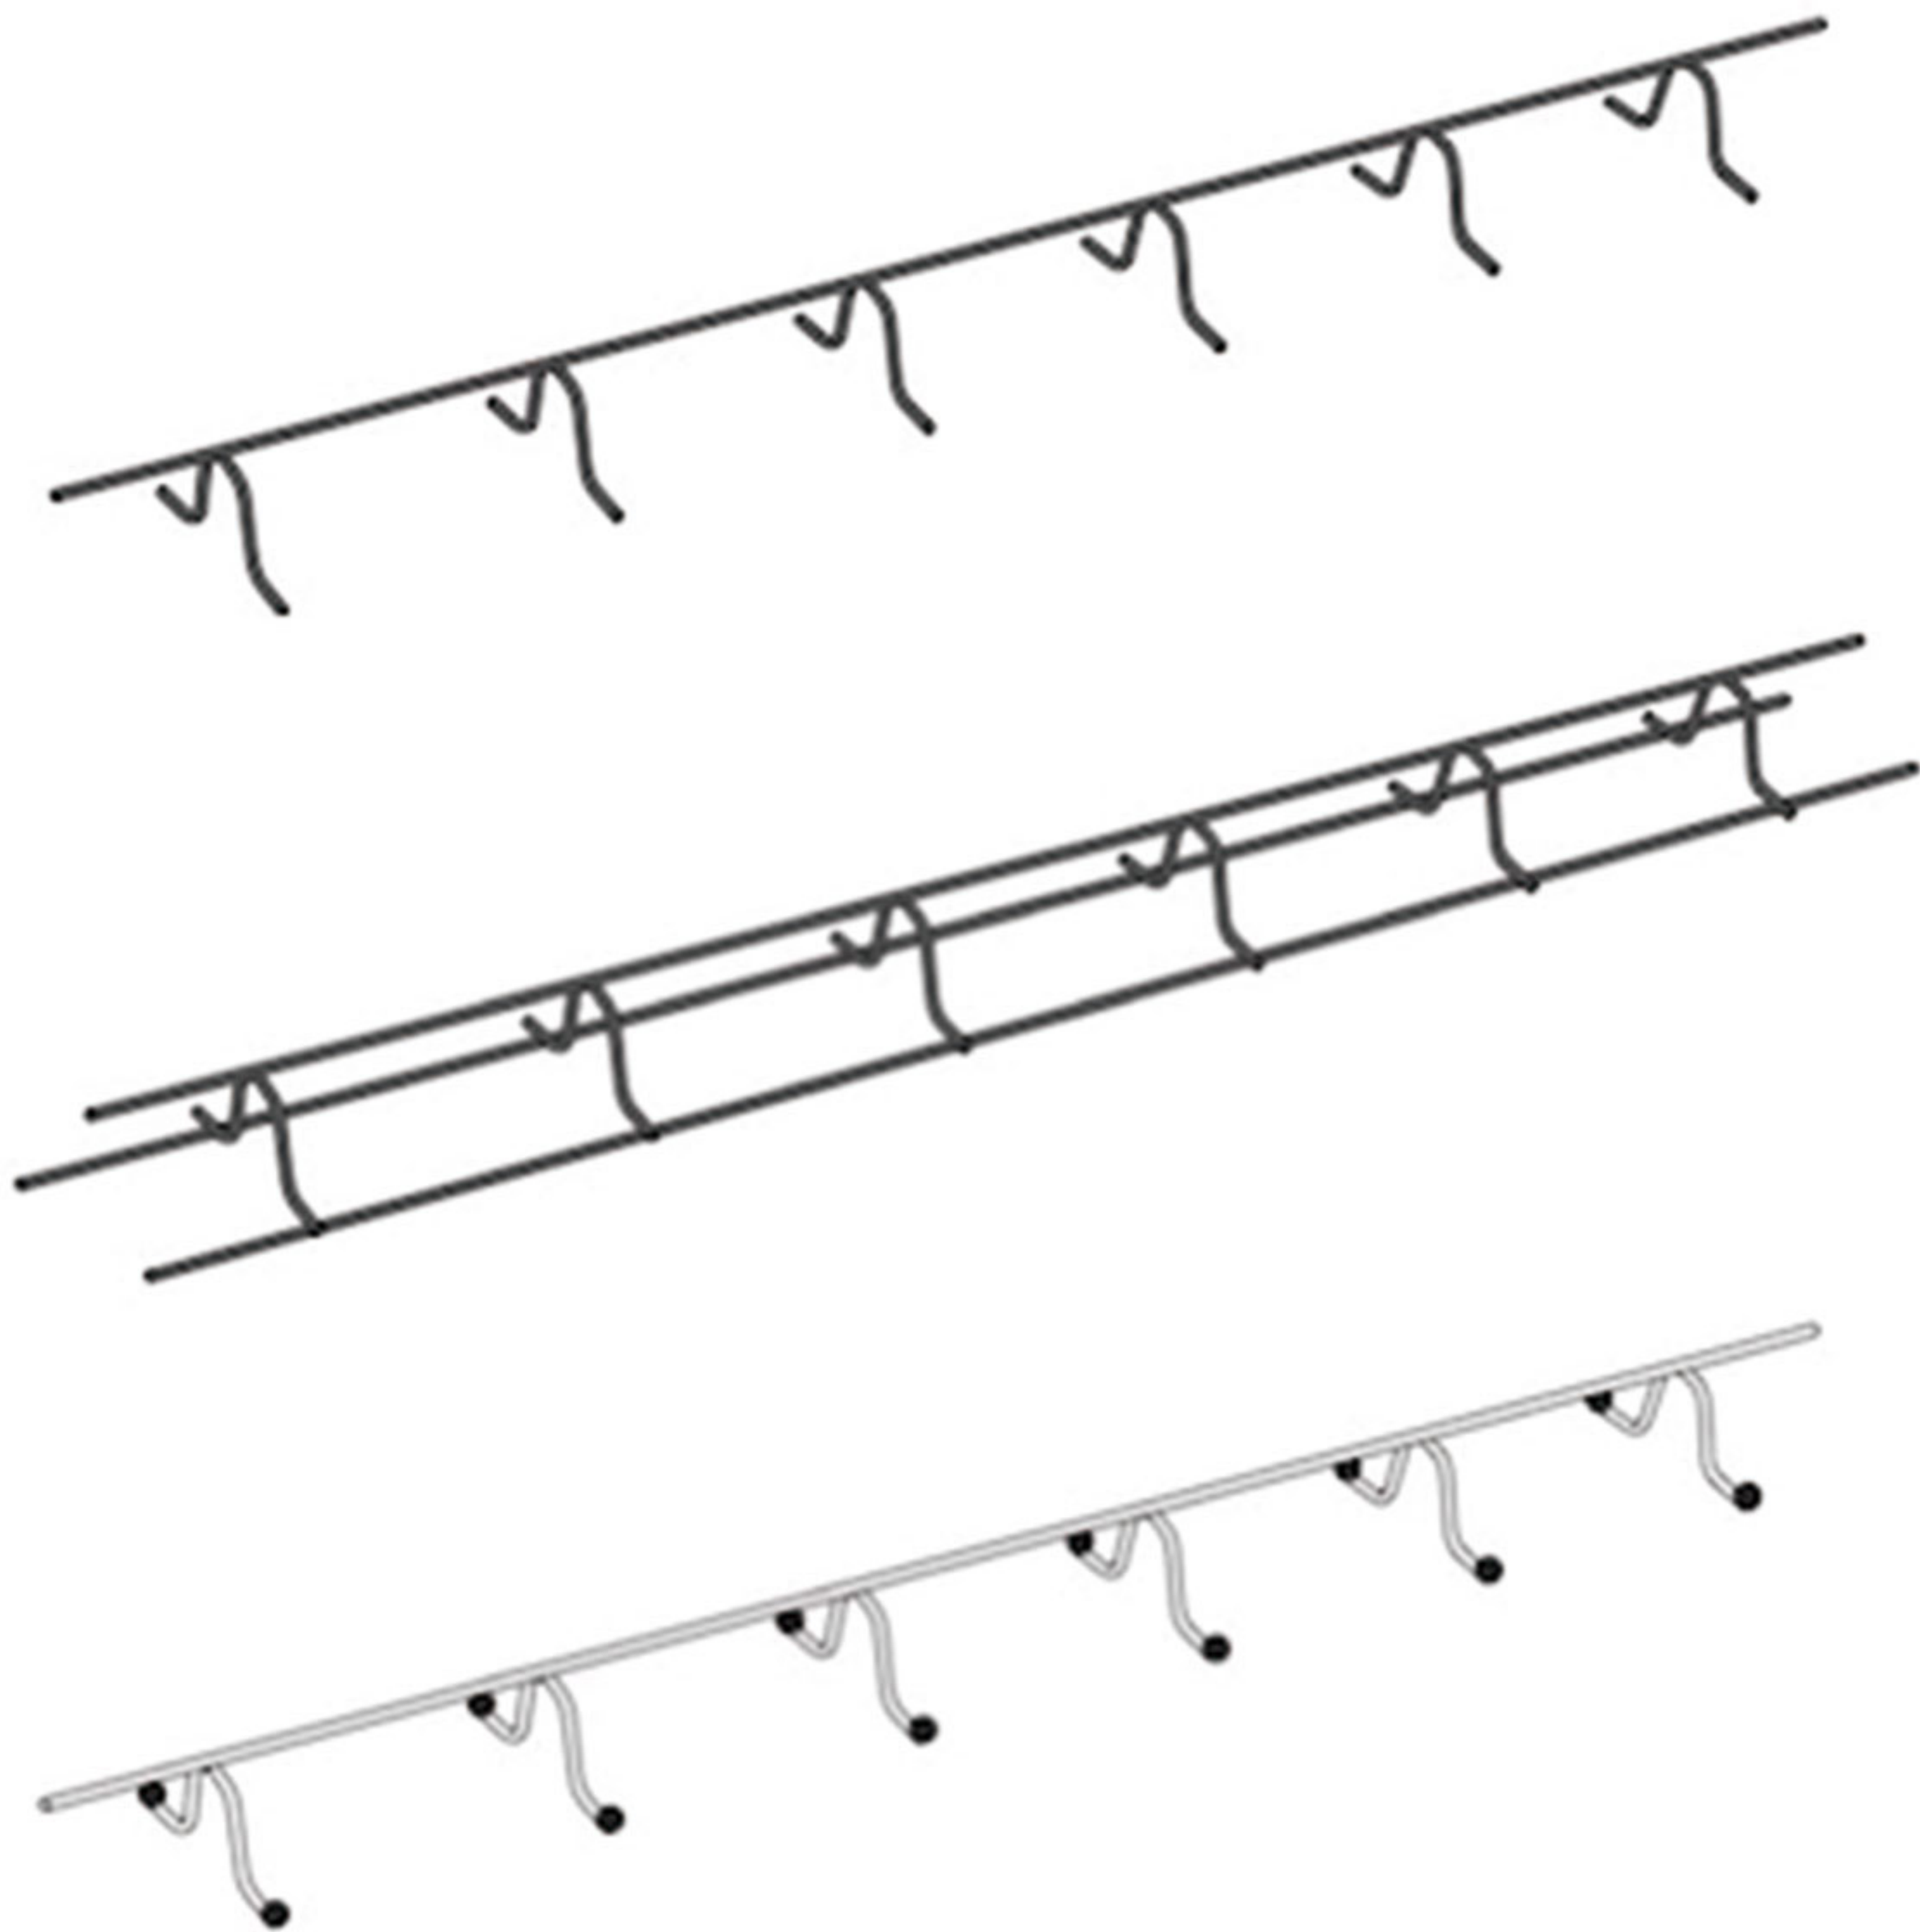

Advantage:

Slab bolster Support one layer of steel above another and space them to required distance.

Material	Steel
Length(mm)	5-10"
Height	1/2"-3"
Surface	Plain / Dipped / Epoxy

Custom sizes and shapes are available

Description:

Plastic Rebar Chair for concrete support are used to support the rebar mats or cages at the desired heights in order to achieve proper concrete coverage and maximize the benefit of reinforcing steel.

Material	Plastic
Concrete Cover	1 1/2" - 2"
For Bar Dia.	1/2"-3"
Custom sizes and shapes are available	

REBAR CAPS

Real environment

Advantage:

- Highly visible orange increases worker visibility of rebar runs.
- Provides some protection from scratches of rebar termination points.
- Reusable
- Excellent marking tool for all rebar work
- Can be used for landscape, survey and stake marking

Material	Plastic
For bar size (mm)	8-40
Pattern	Round / Mushroom / Reinforced
Custom sizes and shapes are available
